

Lenovo 300w Gen 3 (AMD)

This compact convertible powered by the new AMD® 3015e series mobile processor is agile, rugged, reliable and exceptionally lightweight. The 360-degree hinge allows for use across four modes – laptop, tablet, tent, and stand – enabling better task compatibility and efficiency. The optional world-facing 5MP camera makes it easy to capture photos and insert into projects and presentations - all on one device.

Take notes, annotate documents and sketch ideas with the optional digital pen which automatically recharges when docked inside the laptop. The touchscreen also supports use of a regular pencil for basic drawing and note taking.

All-new Wi-Fi 6 capability means users can now enjoy faster connectivity while connecting virtually with colleagues, and uploading files, and 4G/LTE keeps remote workers connected in a world beyond Wi-Fi.

Perfect for everyday productivity tasks including cloud-based productivity software like Microsoft Office 365.

Built for business with cutting-edge technology

Lenovo Mini Series offers smaller notebooks for users with basic computing needs like email and web browsing.
