

Lenovo K14 Gen 1 (Intel)

Rely on this enterprise laptop – a perfect combination of power and performance – for everyday productivity. Powered by the 11th Gen Intel vPro processors, up to 1 TB SSD storage and fast DDR4 memory, it handles data-entry, finance, and accounting work with ease while also supporting video streaming and presentations. Stay connected to more devices and data with four USB and HDMI ports. Wifi-6 ensures faster data connection. Onboard security features prevent data misuse and unauthorized access.

Redefining possibilities with powerful performance and groundbreaking on-device AI

A perfect combination of power and performance, K Series laptops pack a solid punch with new-gen processors, high-speed RAM, and ample storage, enabling users to work more efficiently.

Modern Standby enables the device to wake from sleep in less than one second and stay up-to-date even during sleep mode. And with up to 9 hours of battery life, users can stay productive all day.

Built-in security features, including TPM chip and fingerprint reader, ensure data encryption and user authentication, while the web camera shutter protects user privacy during calls or meetings.

Keep data and device safe with built-in security features, including a TPM chip, fingerprint reader, and camera shutter.
