Lenovo V55t Gen 2-13ACN

This desktop is a great choice for refreshing old devices or supporting the needs of an expanding workforce. Behind the modern, professional design, is a desktop built for today's business environment of office productivity and cloud-based apps. Everything works faster and easier with the latest storage technologies, up to AMD Ryzen 7 processor, a self-help software tool, and plenty of USB ports for connecting office peripherals and charging mobile devices.

Firmware Trusted Platform Module (fTPM) offers chip-level encryption options, while the Kensington™ Lock slot, Padlock Loop, and Smart Cable Clip prevent physical theft. The improved BIOS interface with user-friendly prompts and graphical options makes setting up an easy task.

No user will run out of USB ports with this desktop; there are 8 in total with 4 on the front, including 2x high-speed ports for faster data transfer.

Perfect for buyers looking to maximize the number of devices for their budget without compromising on the productivity needs of their users.

Rugged compact performance primed for business

Lenovo V Series desktops offer exceptional value for money, and are available in a range of sizes and performance configurations to meet the varying needs of your workforce.
