

ThinkCentre M75q Tiny

A micro-desktop packed with connectivity options and security features. Because of its compact 1L size, this device can be placed on or under a desk, behind a monitor or wall-mounted. It comes with Smart Power-On which enables the PC to be started via a keyboard shortcut, useful when the device is out of comfortable reach. Multitasking is easy with high-speed M.2 SSD storage, DDR4 memory, and support for up to 2 independent displays.

Rugged compact performance primed for business

The ThinkCentre M7 Series Tiny offers full desktop computing performance in an ultra-small design, with the latest enterprise security features.

Improve data and device security with a range of features including data encryption technologies, Smart USB protection that can block data transfers, chassis intrusion switch and a Kensington lock slot to tether the device.

There are 6 USB ports including one full-function Type-C port which allows users to connect storage devices, power smartphones and connect to displays using one interchangeable cable.

96% smaller than a traditional desktop - fits on or under a desk, mounted behind a monitor or on a wall.
