

ThinkCentre M75s Gen 2

Looking for a versatile device to support existing or new desk workers in your company? This compact, space-saving desktop can be configured to meet a wide variety of user expectations - from basic admin use to extensive productivity tasks. It comes with thoughtful features like Smart Power-On to which enables the PC to be started via a keyboard shortcut instead of reaching for the power button.

Rugged compact performance primed for business

Whether you run a small business or a department of an enterprise, these desktops are built to handle every workload. Easy to manage, they offer great expandability, rapid processing, and seamless switching between multiple programs.

For employees working with data or graphics, configure the device with 128GB DDR4 memory to boost multitasking performance, AMD Radeon 520 graphics, up to 2x fast SSD storage drives, and the latest AMD Ryzen™ 9 Pro processor.

There are 9x USB ports including 5 located on the front of the device. If data security is a concern, Smart USB protection can block data transfer but still enable keyboards, mice and printers to be used.

This versatile desktop offers a great balance of performance and expansion features, with the enterprise security and productivity features you need.

Lenovo Services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..
