

ThinkCentre Tiny-In-One 22 Gen 4

Create an all-in-one PC using this 21.5" Full HD display, which is compatible with any ThinkCentre Tiny (including those with 65W CPUs). The ThinkCentre Tiny simply inserts into the dedicated compartment behind the screen, enabling the PC to be upgraded independently of the display, which has an optional touchscreen. Integrated web conferencing features include an adjustable webcam and speakers.

Rugged compact performance primed for business

ThinkCentre Tiny-In-One devices enable businesses to upgrade displays and computers separately, but still enjoy the space-saving benefits of an all-in-one device.

Convenient features include the flexibility to use this display as a standalone monitor with 1x DisplayPort in, an integrated smartphone holder in the compact base, and full access to all ports on the front of an installed ThinkCentre Tiny.

The integrated stand supports tilt, pivot and swivel movements, and up to 150mm (5.9") of height adjustment.

Space-saving modular design enables a ThinkCentre Tiny to be integrated into the rear of the display, while the all-new stand design takes up 18% less space than the previous generation Tiny-in-One.

Lenovo Services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

Premier Support

- Talk directly with advanced technical support agents
- Support for software & hardware
