

ThinkPad L13 Gen 3 (AMD)

With improved performance and enhanced security features, this enterprise-grade device is a trusted companion in today's modern hybrid work environments. It features AMD Ryzen processors, up to 32GB DDR4 memory, and up to 1TB of SSD storage – which means quicker responsiveness and smoother computing during compute-intensive tasks. Experience an immersive audiovisual experience, thanks to the Dolby stereo speakers and its IPS touch display supported by integrated AMD Radeon graphics.

Built for business with cutting-edge technology

The mid-range ThinkPad L Series offers enterprise docking, enhanced security features and optional remote management capabilities.

It's well-equipped with a range of security solutions for optimum device and data security, including an optional Power-on Touch fingerprint reader for user authentication and an optional IR camera for facial recognition. Cover the camera with a privacy shutter for user privacy.

It comes with Wi-Fi and optional 4G LTE capabilities on select models. This allows users to stay connected with optimum internet speed, even in a device-congested space.

With the latest AMD processors and fast SSD storage technology, users can rely on this notebook to handle extensive multitasking of web-based applications and popular software titles.

Lenovo Services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

Asset Tagging

- Tamper-proof physical labelling of devices can deter theft
