

# ThinkPad L13 Yoga Gen 2 (AMD)

More flexible than a traditional laptop, its 360° hinge allows mobile workers to use it as a laptop or a tablet; or even in tent or stand mode for 1:1 presentations inside or outside the office. Configure with a range of enterprise security features including a fingerprint reader, IR camera and smart card reader. Meanwhile, the battery lasts up to 10 hours, ensuring uninterrupted productivity on the go.

The onboard digital pen makes it easy to sketch, take notes or review documents on the move, and the pen can be recharged and stored inside the device. The display has an ultra-narrow border, maximizing screen space in a more compact design.

A smartly positioned optional 5MP camera is located on the rear of the device when in tablet mode, allowing users to capture HD photos and videos, just like using a tablet.

Enhanced web conferencing with an integrated 720p HD webcam, optional 5MP world-facing camera, dual array microphones and 2x 2W speakers with Dolby Audio Premium.

## Built for business with cutting-edge technology

The mid-range ThinkPad L Series offers enterprise docking, enhanced security features and optional remote management capabilities.
