

# Lenovo 300e Windows 2nd Gen

This compact convertible is agile, rugged, reliable and now 10% thinner than the previous generation. The 360° hinge allows for use across four modes – laptop, tablet, tent, and stand – enabling better task compatibility and efficiency. The optional world-facing 5MP camera makes it easy to capture photos and insert into projects and presentations - all on one device.

Take notes, annotate documents and sketch ideas with the optional digital pen which automatically recharges when docked inside the laptop. The touchscreen also supports use of a regular pencil for basic drawing and note taking.

Collaboration is a breeze with multiple ports including USB-C, USB 3.0, Bluetooth® and optional HDMI, that facilitate fast data transfers, convenient connections to external monitors, and charging of portable devices.

Perfect for everyday productivity tasks including cloud-based productivity software like Microsoft Office 365.

## Built for business with cutting-edge technology

Lenovo Mini Series offers smaller notebooks for users with basic computing needs like email and web browsing.
