

Lenovo V540-24IWL AIO

This 23.8" all-in-one will modernize any space with its sleek design. It includes thoughtful features that enhance user-comfort and productivity, including a low blue-light mode which reduces eye fatigue, and a Skype-certified camera with privacy cover. It supports both Amazon Alexa and Microsoft Cortana voice assistants, enabling busy users to interact hands-free with the device, for example to look up information, or have emails read aloud.

Configure with M.2 SSD storage to open large files and programs more quickly, or select the dual storage option with a large HDD drive for file storage, and fast SSD for the operating system and programs.

The discrete stand enables the screen to be rotated by 90° and tilted by up to 40° to ensure the perfect angle for work.

This desktop is very affordable for most businesses, but still presents a modern, professional image, with a narrow frame around the screen.

Rugged compact performance primed for business

Stylish, space-saving and packed with productivity features, Lenovo V Series All-in-Ones include rotating webcams, adjustable stands and non-reflective screens.
