

# ThinkPad E495

This laptop delivers ThinkPad performance at a price optimized for almost any budget. With the AMD Ryzen™ processor it can handle day-to-day tasks with ease. Optional dual drive support allows users to balance high-capacity HDD storage with the speed of an SSD enabling files and applications to open faster. Up to 11 hours of battery removes the need for constant recharging when on the move.

Optional IPS display with anti-glare ensures exceptional viewing clarity in all work environments whether it is indoors or outdoors, while a large touchpad makes it easier to navigate documents and web pages without a mouse.

Features a uniquely designed backlit keyboard with minimal gap between the keys and the keyboard frame to effectively minimize dust build-up that may otherwise affect device performance over time.

Perfect for buyers looking to maximize the number of devices for their budget without compromising on the productivity needs of their users.

## Built for business with cutting-edge technology

The entry-level ThinkPad, E Series features the famous keyboard and trackpoint, and is MIL-SPEC tested ensuring the build quality for which ThinkPad is renowned.

## Lenovo services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

### Asset Tagging

- Tamper-proof physical labelling of devices can deter theft
- Can be implemented during or after manufacturing
