ThinkPad T495s

Designed to meet the mobility needs of modern professionals, this 14" productivity workhorse is surprisingly lightweight and comes with the latest AMD Ryzen™ Pro processors. The ultra-narrow frame maximizes the amount of screen space relative to the device size. With up to 16 hours of battery life and optional 4G WWAN connectivity, mobile users can power through their workday without disruption.

Security innovations include an optional Privacy Guard screen that renders the display unreadable for anyone peering from behind or adjacent to the user, ThinkShutter privacy camera cover, an onboard fingerprint reader and data encryption technologies.

MIL-SPEC tested, this notebook delivers peak performance even in extreme working environments; we've subjected it to the toughest shock, vibration, temperature, spill and dust tests.

Integrated HD webcam, Dolby® Audio™ Premium and far-field noise-cancelling microphones, all combine for an enhanced web conferencing experience. ThinkShutter privacy cover enables the camera to be physically blocked.

Built for business with cutting-edge technology

The ultimate productivity notebook, ThinkPad T Series will keep users productive all day with long battery life, docking and enhanced connectivity options, security and manageability features.

Lenovo services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..
