

ThinkPad X390 Yoga

Lightweight at 1.29kg (2.85lbs), this flexible device has up to 14 hours of battery and a 360° hinge for use as a laptop, tablet, or something in between. A digital pen, provided for note taking and drawing, is stored and automatically recharged inside the device. Whether web conferencing or watching video, onboard Dolby® Premium Audio™ re-creates theatre-like sound from the integrated speakers or through headphones.

Built for business with cutting-edge technology

ThinkPad X Series ultraportables combine enterprise security, manageability, docking and productivity features into a thin and lightweight design.

The 8th Gen Intel Core™ processor packs enough power to juggle presentations, emails, and other software applications with ease. Onboard M.2 SSD storage means that files and applications will open more quickly.

Designed for mobile use, optional 4G WWAN connectivity ensures users are always connected, while reliability is assured through our MIL-SPEC testing procedures including extreme temperature, shock, drop and other tests.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

Lenovo services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

Asset Tagging

- Tamper-proof physical labelling of devices can deter theft
