

ThinkStation P330 Tiny

The world's smallest workstation – a micro device that can run many of the applications designers and analysts use every day. Packed inside is an Intel Core™ processor, optional NVIDIA Quadro® graphics and up to 1.5TB of high-speed storage via 2x M.2 PCIe SSD modules. Not just a desktop workstation, this is also an ideal compute edge device, enabling IoT solutions and integrations into other OEM equipment.

Professional machines for advanced users

ThinkStation P3 Series workstations provide affordable power-computing with a choice of processor technologies, expansion bays and support for multiple storage drives.

Optional accessories include: ThinkCentre Tiny Storage Unit which connects to the side of the device, providing a DVD burner or secondary storage drive. Under Desk Mount Bracket - enabling secure mounting under a desk, worktop, or integration into other equipment.

Responsive PCIe SSD storage, powerful processing capabilities, and DDR4 memory make it ideal for data analysis workloads.

Configure with responsive PCIe SSD storage and an Intel Core™ i9 processor to support seamless multitasking of graphic design workloads.

Lenovo services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

Technician Installed Customer Replaceable Unit

- Add-on service for On-Site Warranty Upgrades and Premier Support
- If a faulty device requires a Customer Replaceable Unit (CRU) part we will send a technician to your premises
-

Accessories
