Workstations

These powerful client computing solutions combine advanced graphics, server-grade processors and multi-drive storage arrays with patented cooling and diagnostic features. With built-in tools to optimize performance for a range of professional software applications, our extensive portfolio includes ultramobile laptops, micro-desktops and the largest multi-processor desktop solutions.

ThinkStation P7 Series

ThinkStation P6 Series

ThinkStation P5 Series

ThinkStation P3 Series

Desktop Workstations

Each workstation is built for future expansion and is tested to exceed the requirements of the most demanding software applications.

ThinkPad P1 Series

ThinkPad P Series (15.6")

ThinkPad P4 Series

Mobile Workstations

Designed for power users working and travelling, these devices are optimized for a range of software titles, with professional-grade graphics and processors.

Mobile Workstations

ThinkPad P15v Gen 3

Experience astounding performance, multitasking and visuals in this 15.6" device- designed for modern hybrid workers. Featuring the latest 12th Gen Intel core i7 H-Series processors with 14 core and Intel Iris XE graphics, it can handle all your heavy workloads like data analysis and CAD with ease. Thunderbolt 4 and USB 3.2 ports enable uninterrupted data transfers and amplified connectivity to monitors and peripherals. Choose the 4K IPS display with Dolby Vision HDR for superior clarity and comfort in meetings.

Keyboard with numeric pad

Accidental Damage Protection

Protect from the unexpected

Today's highly mobile workforce knows that accidents happen. Drops, bumps, and spills can damage even the most durable and well-engineered tablets, PCs, and Smart Displays. And since standard warranty terms and conditions don't cover accidental damage to devices, that's where Lenovo's Accidental Damage Protection service comes in.

Covering accidents beyond the system warranty and protecting your devices from non-warranty operational or structural failures incurred under normal operating conditions, **Accidental Damage Protection (ADP)** service helps IT departments avoid purchasing and managing extra inventory to replace damaged units.

ADP offers your organization:

Peace of mind: Avoid unexpected costs associated with replacing damaged system parts.

Comprehensive coverage: Labour, parts, and full system replacement in cases where repair is not possible.

Quality assurance: Performed by Lenovo trained technicians using qualified parts.

Standard warranty terms and conditions don't cover accidental damage and experience shows that a significant portion of users' devices will be damaged and not covered under warranty in the first three years. This is where **ADP will help you save up to 80% of your repair or replacement costs** (depending on device type and repairs needed).

Although many manufacturers limit the number of claims to once per year, Lenovo provides continued coverage and multiple repairs, or a single replacement of your laptop or desktop.
