Workstations

These powerful client computing solutions combine advanced graphics, server-grade processors and multi-drive storage arrays with patented cooling and diagnostic features. With built-in tools to optimize performance for a range of professional software applications, our extensive portfolio includes ultramobile laptops, micro-desktops and the largest multi-processor desktop solutions.

ThinkPad P1 Series

ThinkStation P7 Series

ThinkStation P6 Series

ThinkStation P5 Series

ThinkStation P3 Series

ThinkPad P Series (15.6")

ThinkPad P4 Series

Desktop Workstations

Each workstation is built for future expansion and is tested to exceed the requirements of the most demanding software applications.

Mobile Workstations

Designed for power users working and travelling, these devices are optimized for a range of software titles, with professional-grade graphics and processors.

Desktop Workstations

ThinkStation P350 Tower

For a modest budget advanced users can get this compact workstation and scale performance capabilities as they need. Sleek and stylish, it supports the latest multi-core processors, up to NVIDIA RTX A5000 graphics, 4 internal SATA drives plus up to 3x M.2 SSD. Users can quickly screen and identify potential system errors with the ThinkStation Diagnostics tool.

up to 4 SATA storage drives

Key Specs

Up to Intel Xeon W-1390P/W-1390 or 11th Gen Intel Core i9 processor

Intel UHD Graphics P750 in processor and up to 1x NVIDIA A5000

Up to 16TB SATA HDD + 6TB M.2 PCIe SSD

Powered by Windows 10 Pro for Workstations

ThinkStation P620

This first-of-its-kind workstation, with up to 64-core Ryzen Threadripper PRO processors and PCIe Gen 4 support for graphics and M.2 memory, is designed for power users looking to take productivity to the next level. Apart from being ISV certified to run leading industry applications, it also supports up to NVIDIA Quadro RTX 8000 graphics and offers up to 20TB of storage. Business professionals can run multi-threaded applications or handle graphic-intensive workloads seamlessly without throttling the system.

AMD Threadripper
PRO processor

Key Specs

- Up to one AMD Ryzen Threadripper PRO 5000WX Series
- up to 2x Quadro RTX 8000, or 4x Quadro P2200
- up to 20TB 3.5" SATA HDD + 22TB M.2 SSD
- Windows 11 Pro, Windows 11 DG Windows 10 Pro 64, Windows 10 Pro 64

ThinkPad P14s Gen 1

Our lightest mobile workstation enables advanced users in your workforce to stay productive from anywhere in these changing times. Whether computing data or rendering videos, expect fast and responsive performance. It packs in optional NVIDIA Quadro P520 graphics, up to 48GB DDR4 memory, and up to 2TB of M.2 PCIe SSD storage. Experience faster internet speeds, either through WiFi 6 when in a crowded network environment, or using the optional WWAN module when working remotely.

Thunderbolt 3 port

Key Specs

- up to 10th Gen Intel Core i7 processor
- 14.0" screen, up to 4K (3840x2160) Dolby Vision HDR, or Full HD (1920x1080)
- NVIDIA Quadro P520, 2GB
- Powered by Windows 10 Pro

Workstations Accessories

ThinkPad Professional Backpack

Key Specs

- ▶ Lightweight bag (1.3kg/2.87lbs) with unique design that cradles a laptop for superior protection
- ▶ Compatible with laptops up to 15.6"
- ▶ Hidden security pocket for valuables and a tablet storage pouch

ThinkPad Thunderbolt 3 Workstation Dock Gen...

Key Specs

- ▶ Provides up to 170W of power for a ThinkPad mobile workstation or laptop via a single cable
- ▶ 5x USB3.1 (1x always-on for charging mobile devices), front-facing Thunderbolt 3 port for 40Gbps data transfer
- ▶ 2x DisplayPort, 2x HDMI - connect up to 3x 4K displays

Lenovo Dual Platform Notebook & Monitor Sta...

Key Specs

- ▶ Raises the monitor up to a more ergonomic viewing height
- ▶ Integrates laptop, dock, and monitor, into one convenient work space
- ▶ Attach a ThinkCentre Tiny underneath the upper platform with a VESA mount (sold separate)

Lenovo Professional Wireless Keyboard & Mouse

Key Specs

- ▶ Wireless keyboard and mouse combo with reliable 2.4 GHz wireless connection
- ▶ Slim keyboard with number pad, noise-suppression design, dedicated media controls & adjustable tilt legs
- ▶ Contoured design of the mouse suits both left-handed & right-handed users

Laptops

From optimized, portable designs to the latest processing power, experience unparalleled quality and reliability with Lenovo's laptop portfolio. Powered by the latest processors, these laptops deliver blazing performance and incorporate cutting-edge features for seamless multitasking. Furthermore, ample memory and top-tier graphics ensure professionals can run demanding applications without experiencing any lag.

Mini Laptops

Lenovo 300e Windows 2nd Gen

This compact convertible is agile, rugged, reliable and now 10% thinner than the previous generation. The 360° hinge allows for use across four modes – laptop, tablet, tent, and stand – enabling better task compatibility and efficiency. The optional world-facing 5MP camera makes it easy to capture photos and insert into projects and presentations - all on one device.

garaged digital pen

Key Specs

Intel Celeron or Pentium Silver processor

11.6" touchscreen, HD (1366x768), optional garaged pen

Powered by Windows 10 Pro

Lenovo 500e Chromebook Gen 3 (Intel)

This lightweight convertible Chromebook boosts individual productivity and facilitates collaboration in equal measure. A durable 360° hinge enables four modes of interaction – laptop, tablet, tent or stand – that users can adapt to their work style. Anytime, anywhere access to G Suite helps employees work and collaborate on the move, while the onboard pressure-sensitive digital pen is great for taking notes, reviewing presentations or signing documents.

Touchscreen with Corning Gorilla Glass

Key Specs

Intel Celeron/Pentium processor

11.6" touchscreen, HD (1366x768), garaged pen

Google Chrome

Lenovo 500w Gen 3 (Intel)

Packed with the latest Intel Pentium processor and integrated Intel UHD graphics, this lightweight convertible delivers learning anytime and anywhere. A durable 11.6" HD IPS touch display featuring pencil touch technology, and an optional garaged AES pen allows users to easily navigate, swipe, write and annotate documents on the screen while ensuring it stays smudge-free. Plus, up to 256GB of internal SSD storage ensures faster running of multiple applications.

Touchscreen with
Corning Gorilla
Glass

Key Specs

- Intel Celeron/Pentium processor
- 11.6" touchscreen, HD (1366x768), garaged pen
- Windows 10 Pro

Lenovo 14e Chromebook Gen 2

Thinner, lighter, more durable, and packed with new features ranging from more ports to Wi-Fi 6 capability to up to 16 hours of battery life, this Chromebook is powerful and versatile enough to meet every user's need, whether you're a tech-savvy sales exec or a young freelance writer just starting your journey. It is built on the popular Chrome platform and features the latest AMD® processor that can handle day-to-day tasks with ease.

Google G Suite
applications

Key Specs

- AMD 3000 Mobile Processor
- 14.0" screen, Full HD (1920x1080), optional touch
- Google Chrome

Lenovo 14w Gen 2

This 14" ultraslim notebook is more than capable of handling the day-to-day tasks of basic users. Powered by dual core AMD 3000 mobile processors and backed by an easy-to-use Windows platform, it benefits from enhanced security features that help businesses keep their data and devices protected. Apps like Office 365 and StaffHub can be accessed from anywhere at any time, boosting productivity and facilitating real-time collaboration.

backlit keyboard

Key Specs

AMD 3000 Mobile Processor

14.0" screen, Full HD (1920x1080), optional touch

Powered by Windows 10 Pro

ThinkPad L13 Yoga Gen 2 (Intel)

More flexible than a traditional laptop, its 360° hinge allows mobile workers to use it as a laptop or a tablet; or even in tent or stand mode for 1:1 presentations inside or outside the office. Configure with a range of enterprise security features including a fingerprint reader, IR camera and smart card reader. Meanwhile, the battery lasts up to 10 hours, ensuring uninterrupted productivity on the go.

fold to create a
tablet

Key Specs

up to 11th Gen Intel Core i7 processor

13.3" touchscreen, Full HD (1920x1080), garaged digital pen

Powered by Windows 10 Pro

Laptops Accessories

ThinkBook 13"/14" Sleeve (Grey)

Key Specs

- ▶ Slim design and contemporary grey colour tones to complement the ThinkBook laptop
- ▶ Soft-touch micro-fibre interior to protect against scratches and convenient zipper closure
- ▶ Designed to fit ThinkBook 13" and 14" laptops (and most other 13" to 14" laptops)

ThinkBook Plus 13.3" Sleeve

Key Specs

- ▶ Contemporary design that perfectly complements your ThinkBook Plus
- ▶ High-quality charcoal grey mélange material and interior foam padding to protect the e-ink display on device's top cover
- ▶ Magnetic locking mechanism to prevent the device from falling out of the sleeve

ThinkPad X1 Leather Sleeve

Key Specs

- ▶ Thin design to complement ThinkPad X1 Carbon or Yoga
- ▶ Black leather with soft-touch grey microfiber interior and magnetic closure
- ▶ Convenient storage loop for pen or style and rear pocket for accessories

Lenovo Pro Stereo Wired VOIP Headset

Key Specs

- ▶ USB or 3.5mm analog connection with integrated call controls
- ▶ Skype for Business and Microsoft Teams certified
- ▶ HD noise-cancelling microphone

ThinkPad X1 Active Noise Cancellation Headph...

Key Specs

- ▶ Ambient & electronic noise cancellation, integrated boom-less mic for calls
- ▶ Bluetooth 5.0 connectivity with USB-C charging in under 3 hours
- ▶ Lightweight 214g (0.47lbs) design with memory foam ear cups

Lenovo 65W USB-C AC Travel Adapter

Key Specs

- ▶ Ultraportable, lightweight design perfect for frequent commutes and travel
- ▶ Charge USB-C devices up to 65W. Universal travel plugs cover most regions and are easily replaceable
- ▶ Convenient carry pouch for travelers included

Desktops / All-In-Ones

Lenovo desktops offer flexibility for a range of office environments including sleek space-saving all-in-ones and micro-desktops that can be hidden from view. Each device has different performance and future upgrade capabilities, designed to meet your changing needs over time.

Micro Desktops

With a wide range of configurations built for demanding workflows, this micro desktop is engineered to deliver the ultimate power, performance, reliability, and security.

Towers

Compact, high-performing, and loaded with business-amplifying functionalities, our desktop towers are the top choice among users across all industries.

Modular All-In-Ones

Versatile and instantly configurable, our modular all-in-one neatly houses a Tiny PC and display (sold separately) inside the monitor. Compatible with most ChromeBox and Thin Clients, it combines the space-saving design of traditional all-in-one desktops with an upgradeable architecture.

Regular All-in-Ones

All-in-One desktops save space by integrating the PC into the display and have built-in web cams and speakers and require only one power cable.

Micro Desktops

ThinkCentre M75n

Designed for ultimate flexibility, whether working from home or an office. Our smallest PC delivers all the functionalities of a regular desktop in a device not much bigger than a smartphone. Place it anywhere – on the desk, mounted on a wall or behind a display. A keyboard shortcut can power on the device if the power button is inaccessible. Powerful AMD Ryzen PRO processors with Radeon Vega graphics support a broad scope of workloads.

Remote Power On
via USB

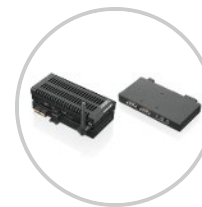

Key Specs

- up to AMD Ryzen Pro 5 processor
- AMD Radeon Vega 6/8 Graphics in processor
- Powered by Windows 10 Pro

ThinkCentre M75n IOT

Drive automation and data exchange with a fully-equipped IoT gateway device in a 0.55L micro-desktop form factor. Thanks to the ultra-compact design and multiple compatible mounting options, it can be placed almost anywhere. There are onboard USB and serial ports, Wi-Fi, Bluetooth and ethernet connections for data transport. Optional I/O box extends connectivity with additional serial ports, DI and DO connectors.

optional I/O
expansion box

Key Specs

- up to AMD Athlon Silver processor
- AMD Radeon graphics in processor
- Powered by Windows 10 Pro

ThinkCentre M75n Thin Client

Deploy devices at a lower cost and secure company data with this miniature Thin Client solution. Choose from Windows IoT Enterprise or Linux-based Lenovo Terminal Operation System which supports Microsoft, VMware, Citrix and XenDesktop web applications. Our smallest PC delivers all the functionalities of a regular desktop in a device not much bigger than a smartphone. Place it anywhere – on the desk, mounted on a wall or behind a display.

not much bigger
than a smartphone

Key Specs

AMD Ryzen 3 Pro 3300U processor

AMD Radeon Vega 6 Graphics in processor

Windows 10 IoT Enterprise -or- LeTOS V2 (Lenovo Terminal Operating System, Linux-based)

ThinkCentre M90n Nano

Not much bigger than a smartphone, our smallest PC uses an energy-efficient CPU and provides the functionality of a desktop in a format that's infinitely flexible. Deploy with a single USB-C cable that connects to a compatible display providing both power and video connection. Place on a desk, use one of several mounting options, or slot into the rear bay of our Tiny-in-One displays.

full range of
connectivity ports

Key Specs

up to 8th Gen Intel Core i7 processor

Intel UHD Graphics in processor

Powered by Windows 10 Pro

ThinkCentre M90n Nano IoT

A versatile gateway for your IoT ecosystem, the ThinkCentre Nano IoT comes with edge-computing capabilities – with 8th Gen Intel processors, up to 8GB DDR4 memory and ultra-fast M.2 PCIe SSD storage. There are plenty of ports, wireless connectivity options and an optional I/O BOX, to connect everything from sensors, IoT endpoints, and legacy devices to cloud-based servers.

extensive I/O options

Key Specs

Intel Celeron or 8th Gen Core i3 processor

Intel UHD Graphics in processor

Powered by Windows 10 Pro or Windows 10 IoT Enterprise

ThinkCentre M75q Gen 2

A micro-desktop packed with connectivity options and security features. Because of its compact 1L size, this device can be placed on or under a desk, behind a monitor or wall-mounted. It comes with Smart Power-On which enables the PC to be started via a keyboard shortcut, useful when the device is out of comfortable reach. Multitasking is easy with high-speed M.2 SSD storage, DDR4 memory, and support for up to 3 independent displays.

create an AIO with Tiny-in-One

Key Specs

AMD Radeon graphics in processor

Powered by Windows 11 Pro

Towers

Lenovo V35s 07ADA

An excellent choice for businesses seeking a reliable, budget-friendly desktop. Under its compact 7.4 litre chassis, it packs in up to AMD Ryzen 5 Processors, integrated AMD Radeon Vega graphics and up to 32GB DDR4 memory. Enjoy faster boot times, better responsiveness and switch between tasks more seamlessly. There are plenty of USB ports to connect essential peripherals and expand device capabilities.

Padlock Loop &
Kensington lock
slot

Key Specs

- up to AMD Ryzen 5 processor
- AMD Radeon or AMD Radeon Vega graphics
- Powered by Windows 10 Pro

Lenovo V50s 07IMB

This compact desktop is much smaller than a regular tower, but retains many of the upgrade and performance capabilities, including two PCIe expansion slots. Completely re-designed with an Iron Grey finish, it has front air vents for improved air circulation and a new cooling system that can boost performance or reduce fan noise in different scenarios.

space-saving
design

Key Specs

- up to 10th Gen Intel Core i9 processor
- optional NVIDIA GeForce GT 730 2GB graphics or AMD Radeon 520
- Powered by Windows 10 Pro

Lenovo V50t 13IMB

This 13.6-litre desktop featuring an all-new design in black and metallic Iron Grey finish can modernize any space. Equipped with powerful Intel processors, BIOS-based and physical security features, and more efficient cooling technology, it delivers the performance your workforce needs to stay on top of day-to-day workloads. And there are plenty of USB ports, including 4x USB3.1 ports conveniently in the front, for connecting essential peripherals.

Smart Cable Clip
on the chassis

Key Specs

up to 10th Gen Intel Core i9 processor

optional NVIDIA GeForce GT 730 2GB graphics or AMD Radeon 520

Powered by Windows 10 Pro

Lenovo V50t G2 13IOB

This sleek 13.6-litre desktop can modernize any workplace working with a fixed IT budget. Equipped with powerful Intel processors, BIOS-based and physical security features, and more efficient cooling technology, it delivers the performance your workforce needs to stay on top of day-to-day workloads. And there are plenty of USB ports, including 2x USB 3.2 Gen 1 and 2x USB 3.2 Gen 2 ports conveniently in the front, for connecting essential peripherals.

Multiple easy-
access ports

Key Specs

Intel® Celeron®, Intel Pentium®, 10th Generation Intel Core™ i3 / i5 / i7 Processor, or 11th Generation Intel Core i5 / i7 / i9 Processor

Optional NVIDIA GeForce RTX 3050 4GB graphics or AMD Radeon RX 550X

Powered by Windows 10 Pro

Lenovo V55t-15API

This desktop is a great choice for refreshing old devices or supporting the needs of an expanding workforce. Behind the modern, professional design, is a desktop built for today's business environment of office productivity and cloud-based apps. Everything works faster and easier with the latest storage technologies, up to AMD Ryzen 5 processor, a self-help software tool, and plenty of USB ports for connecting office peripherals and charging mobile devices.

honeycombed air vents

Key Specs

- up to AMD Ryzen 5 processor
- optional NVIDIA GeForce GT 730 2GB graphics
- Powered by Windows 10 Pro

ThinkCentre M720s

Users can open heavy files quickly and easily with the Gen 8 Intel Core™ processor and integrated Intel HD graphics. The space-saving vertical mount options allow the M720s to fit anywhere—on a bookshelf or under the table, for a clutter-free desk.

convenient front-mounted ports

Key Specs

- up to 9th Gen Intel Core i9 processor
- optional NVIDIA GeForce GT 730 or AMD Radeon 520 graphics
- Powered by Windows 10 Pro

ThinkCentre M720t

For demanding users who require a high-performance machine for intense tasks, this device comes with Gen 8 Intel Core™ Processor, integrated Intel HD graphics, M.2 PCIe SSD and up to 64GB memory that makes multitasking effortless.

connectivity & expansion options

Key Specs

up to 9th Gen Intel Core i9 processor

optional NVIDIA GeForce GT 730 or AMD Radeon 520 or RX 550X graphics

Powered by Windows 10 Pro

ThinkCentre M725s

From basic admin to extensive productivity tasks, this product can be configured to meet a wide variety of user expectations, whilst reducing the need for bulky desktops. The depth of this device has been reduced, saving workspace and enabling more space for cable routing at the rear of the device. Subjected to more than 100 performance and reliability tests, it has unique features like optional dust filters and a cable lock to secure peripherals.

footprint reduced by 25%

Key Specs

up to AMD Ryzen 7 Pro processor

optional NVIDIA GeForce GT 730 2GB graphics

Powered by Windows 10 Pro

ThinkCentre M75s Gen 2

Looking for a versatile device to support existing or new desk workers in your company? This compact, space-saving desktop can be configured to meet a wide variety of user expectations - from basic admin use to extensive productivity tasks. It comes with thoughtful features like Smart Power-On to which enables the PC to be started via a keyboard shortcut instead of reaching for the power button.

reduced depth and width

Key Specs

- Up to AMD Ryzen 9 Pro processor
- Optional AMD Radeon 520 2GB graphics
- Powered by Windows 11 Pro

ThinkCentre M75t Gen 2

Packed with the latest security and connectivity features demanded by businesses today, this powerful desktop tower also comes with the added advantage of easy upgradability over time. It is powered by AMD Ryzen 7 processors to accelerate business productivity. High-speed M.2 SSD storage and support for up to 3 independent displays allows office workers to multitask with ease. Plus, a USB-C port on the front panel enables quick and convenient data sharing.

an array of ports

Key Specs

Key Specs

- Compact familiar ThinkPad keys with integrated ThinkPad trackpoint
- Dual mode connection with Bluetooth 5.0 and 2.4G Wireless via Nano USB dongle
- Supports 6-point key typing for visually impaired

Lenovo 45W USB-C AC Portable Adapter

Specifications

Compatibility: Compatible with 45W computer systems and qualified 65W (with limited charging functionality) computer systems

AC Input: 100V–240V ~1.2A; 50 Hz - 60 Hz DC

DC Output: 5V 3A/9V 3A/15V 3A/20V 2.25A

Cable Length: 1.8 m (70.9")

Dimensions: Width: 53.5 mm (2.11") Depth: 40.5 mm (1.59") Height: 28 mm (1.1")

Weight: 92 g (0.202 lbs)

Part Number

4X20V07881

Ultracompact, lightweight design

Perfect for travelers on-the-go; the sleek design allows you to make the most of your backpack space. With a 1.8m cord featuring an adjustable voltage of 5V/9V/15V/20V, it easily supports your 45W USB-C devices.

Multiple device compatibility

Compatible with all your USB-C tech, from laptops to mobile devices, and tablets. This light, compact adapter works as an all-in-one, permitting you to travel lighter.

Safe and secure refuelling

Built-in smart clip safeguard protects against over-heating, power surge, over-voltage and short-circuit protection, strong enough to allow full-speed 45W to pass through - ensuring your tech stays safe on your journey.

Lenovo 65W USB-C AC Travel Adapter

Specifications

AC Input : 100V - 240V ~1.7A; 50 Hz - 60 Hz

DC Output : 5V/3A, 9V/3A, 15V/3A, 20V/3.25A

Connection : USB-C supporting Smartphones, Laptops

Plugs : 4 wall mount plugs

Dimensions: Width: 59.7mm (2.35") Depth: 42.5mm (1.67") Height: 30mm (1.18")

Weight: 117g (0.26lb) , US Plug: 13g (0.029lb)

Cable length : 1.8m (70.7")

Part Number

40AW0065WW GOA6N065WW 40AW0065EU-(EU plug)

More Space, More Freedom

Designed to make business travel light and easy, the Lenovo 65W USB-C AC Travel Adapter takes up only 90 cubic centimeters of space and weighs just 117g. That's 44% smaller and 50% lighter than our previous generation of chargers,

More Speed, More Ease

This 65W PD 3.0 certified adapter delivers enough power to charge almost any USB-C device rapidly. Better yet, it's reversible Type-C connector allows it to be plugged into any socket regardless of how it's held or inserted.

More Adapters, More Locations

4 Interchangeable plugs for international business trips (US, EU, AU, UK) with a simple twist-and-lock mechanism.

Lenovo Powered USB-C Travel Hub

Specifications

- Connectivity:** USB-C cable

- Power Consumption:** 15W; could be powered by a system without additional AC adapter
- USB-C Laptop Charging:** with 45W & 65W USB-C power adapter
- PXE Boot:** Selected ThinkPad laptops
- MAC Address Pass-through:** Selected ThinkPad laptops
- Wake-on-LAN:** Selected ThinkPad laptops

Part Number

4X90S92381

One cable, six options

Easily connects to an external 4K or 1080p display with HDMI or VGA, supports wired RJ45 network, two USB-A devices and USB-C power pass-through – all through one USB-C cable.

Understated design, travel-ready

Makes travel light and easy, and packs unobtrusively into a bag. Ready for everything, the travel hub can provides power to a USB-C laptop with an additional 45W or 65W USB-C power adapter (sold seperately).

Plug and play functionality

Easy to use and driver-ready, the Hub works with any USB-C device. Especially compatible with ThinkPad systems, delivering enterprise-class features such as MAC address pass-through, Wake-on-LAN and PXE boot.

Lenovo USB-C 7-in-1 Travel Hub

Specifications

Max. Power Consumption: 15W (5V/3A)

Supported OS: Windows 10

Compatible System: Universal hub to support notebooks with fully-functional USB-C port supporting 5V/3A power output

Ports:

2x USB 3.0

1x USB 2.0

1x HDMI

1x TF card reader

1x SD card reader

1x USB-C charging port

Cable Length 140mm (5.5") including USB-C Port

Color: Iron Grey

Video Resolution: 3840 x 2160 @ 30 Hz

Dimensions: Width: 247mm (9.72") Depth: 49.6mm (1.95") Height: 14mm (0.55")

Weight: 92g (0.2lbs)

Part Number

4X90V55523

One cable, seven abilities

With this travel hub in hand, you can turn a single USB-C cable into a powerhouse of productivity. Supports a 4K display via HDMI, up to three USB-A devices, two SD/TF card readers and USB-C power pass-through.

Sleek, minimalist design

Connect a 45W/65W USB-C power adapter to the USB-C port on this hub to pass-through charging power to a USB-C notebook.

Simple plug & play

No need to wait for drivers to install. This plug & play hub comes ready to use right out of the box and supports any fully-functional USB-C system, providing video, data, and power. Integrated USB-C cable disappears inside the hub when not in use.

Lenovo USB-C to 4 Port USB-A Hub

Specifications

Input Type: USB-C

Output Type: 4x Female USB-A Outputs (USB 3.1 Gen 1), up to 5 Gbps

Product dimensions:

(mm) : 95 x 37 x 12

(inches) : 3.7" x 1.5" x 0.5"

Cable length: 138mm (5.43")

Weight: 42g (0.092lbs)

Part Number

4X90X21427

Plug-and-play design

The Lenovo USB-C to 4 Port USB-A Hub works right out of the box so you can get to work right away. There's no need to download any drivers.

Fast and versatile

A wide range of legacy USB devices can be connected via the 4x USB3.1 Gen 1 ports on the expansion hub including printers, scanners, webcams and other peripherals. It also enables high-speed data transfers.

Easy to carry

Weighing only 42 grams, it's small and easy to fit in your pocket or a carry case compartment - so it is always with you when needed.

Lenovo USB-C to VGA Adapter

Specifications

Video output: supports extended mode, mirror mode

Max power consumption: 5V +/- 5%, 1.5A

Bandwidth supported: up to 5.4Gbit/s

Display resolutions supported:

WUXGA: 1920x1200, 60 Hz, 18 bpp, 193 MHz pixel clock rate

WUXGA: 1920x1200, 60 Hz (reduced blanking), 24 bpp, 154 MHz pixel clock rate

UXGA: 1600x1200, 60 Hz, 162 MHz pixel clock rate

SXGA: 1280x1024, 60 Hz, 108 MHz pixel clock rate

XGA: 1024x768, 60 Hz, 65 MHz pixel clock rate

SVGA: 800x600, 60 Hz, 40 MHz pixel clock rate

VGA: 640x480, 60 Hz, 25 MHz pixel clock rate

Weight: 45.3g (0.1lbs)

Dimensions: Width: 27mm (1.06"), Depth: 222mm (8.74"), Height: 12mm (0.47")

Part Number

GX90M44578

One connection simplicity

This adapter has been designed to mirror a user's primary display or to extend it and expand their virtual workspace without the installation of additional drivers.

Flexible user-experience

Connect to any display, projector or TV featuring VGA input. USB-C to VGA conversion delivers high-quality video to your display, projector or TV with resolutions up to 1920x1200.

Lightweight design

Compact, portable build featuring familiar sleek design to complement other Lenovo products.

Lenovo USB-C Travel Hub

Specifications

Interface: USB Type-C

Ports :

HDMI Port : Up to 3840 x 2160 @ 30 Hz

VGA Port : Up to 1920 x 1080 @ 60 Hz

USB 3.0 : 5 Gbps, 5 V / 0.9 A

RJ45 : Gigabit Ethernet

Power: 5 V / 3 A on USB-C Port

Dimension: Width: 68 (2.68) Depth: 63 (2.48) Height: 18mm (0.71")

Weight: starting at 80g (0.18lbs)

Part Number

4X90M60789

Single-cable connectivity

Easily connect to an external display, wired ethernet network, and USB 3.0 devices via a single USB-C port. The lightweight and compact design makes it perfect for travel.

Stunning 4K or 1080p

Make impressive presentations on a vibrant 4K display via HDMI or connect a Full HD display using the VGA port. It can also connect to a projector or large TV in a conference room.

Travel light

Multiple connector ports in a compact, lightweight design ensures business travellers need to carry fewer transition cables and have more space in the bag.

ThinkBook Plus 13.3" Sleeve

Specifications

Compatibility: ThinkBook Plus 13.3"

Weight: 0.34kg (0.75lb)

Thickness: 23.5mm (0.93")

Color: Grey

Protective Material: Padded sleeve with microfiber lining

Part Number

4X40Z20175

Elegantly sleek

Slim profile with just enough padding to protect your laptop, so you can easily fit it inside your backpack or carry case.

Complementary aesthetics

The high-quality charcoal grey mélange material perfectly complements the design aesthetics of your ThinkBook Plus

Easy to use

The magnetic locking mechanism secures the device in place and is intuitively easy to open and close when on the go

ThinkBook 13"/14" Sleeve (Grey)

Specifications

Device Compatibility : ThinkBook 13s, 14s and 14 (and most devices 14" and under)

Dimension : Length: 320mm (12.59"), Depth: 18.9mm (0.74"), Height: 228mm (8.97")

Weight : 0.16kg (0.35 lbs)

Color : Grey

Material : Polyester

Part Number

4X40X67058

Thin and lightweight

The ThinkBook 13"/14" Sleeve (Grey) is designed for the modern professional. Its contemporary grey colour tone and slim silhouette keep you looking stylish, while the soft internal padding and microfibre lining protect your ThinkBook laptop.

Perfect travel companion

A high-tech look that fits perfectly into any business or casual environment. Lightweight, tear-resistant fabric that's robust enough for daily wear and tear. Padded, soft-lined PC compartment and a zippered closure to keep your device protected.

Multi-faceted use

It's a multi-functional backpack that matches your other ThinkBook gear. Soft-touch microfiber interior protects your laptop from scratches. Convenient horizontal insertion with a zipper closure.

Protective Case for 100e, 300e & 500e Gen 2

Specifications

Part Number : 4X40V09688

Fits Up To: 100e Chrome (Intel processor) and 100e Windows

Color: Black/Transparent

Weight: 373.2g (0.82 lbs)

Part Number : 4X40V09689

Fits Up To: 100e Chrome (MediaTek processor)

Color: Black/Transparent

Weight: 380.4g (0.84 lbs)

Part Number : 4X40V09690

Fits Up To: 300e Chrome (MediaTek processor) and 300e Windows

Color: Black/Transparent

Weight: 345g (0.76 lbs)

Part Number : 4X40V09691

Fits Up To: 300e Chrome (Intel processor) and 500e Chrome

Color: Black/Transparent

Weight: 354.8g (0.78lbs)

Part Number

100e: 4X40V09688 / 4X40V09689 || 300e: 4X40V09690 / 4X40V09691

2-in-1 design

Fitted with a convertible hinge, all cases support both laptop and tablet modes (300e and 500e). Implementation is quick and easy with intuitive snap-in installation feature. Cases are suitable for the classroom or industrial and outdoor use.

Protection against damage

Features reinforced edges and corner bumpers for protection against any accidental damage, dents and scratches. It is easy to clean too.

Classroom ready

Devices function perfectly with full access to keyboards and ports during use. For schools that use charging carts, the cases have been designed to fit inside most models. The rear of the case has a clear window to facilitate asset tagging.

Lenovo Eco Pro 15.6" Backpack

Specifications

- Device Compatibility :** Supports Lenovo laptops up to 15.6"
- Modern Design :** Includes workstation, trolley strap for luggage attach, hidden security pocket, and two zippered water-bottle pockets
- Eco-Friendly :** Contains recycled polyester, recycled laminate. Manufactured with global r ecycle standard-certified materials.
- Color :** Moss green
- Material Used :** Recycled polyester, recycled polyvinyl butyral, nyflex
- Dimensions :** Width: 489mm (19.25"), Depth: 165mm (6.5"), Height: 311mm (12.24")
- Weight :** 0.8kg (1.76lbs)

Part Number

4X40Z32891

Sustainable. Eco-friendly. Innovative.

Over 83% of this backpack is recycled. The equivalent of 34 plastic water bottles are turned into soft polyester to make each backpack, along with recycled laminate commonly used in car windshields, and other Global Recycle Standard certified fabrics.

Modern design. Travel-friendly.

Dedicated laptop (up to 15.6") and tablet compartment, spacious storage area, easy-access smaller pockets, side water-bottle pockets, luggage strap, and a hidden security pocket. Organize all your items and travel with ease.

Lenovo Business Casual Sleeve Case

Super Sleek

Look your best with a sleek, minimalist style that comes in four form-fitting sizes for the perfect match with a laptop.

Super Sturdy

Water-repellent neoprene exterior protects the laptop from the elements while the soft fleece interior dampens bumps and keeps it safe and sound.

Lenovo 15.6" Laptop Casual Backpack

Specifications

Compatibility: Supports laptops up to 15.6"

Material: Polyester

Design feature:

Multi-compartment design
Easily organize and separate laptop from other essentials

Durability: Made water-repellent snow yarn polyester.

Dimensions: Width: 150mm (5.9"), Depth: 455mm (17.9"), Height: 340mm (13.3")

Weight: 453 g (0.90 lbs)

Part Number

GX40Q17225

Grab and go organization

Multiple pockets mean you can access everything you need for work, travel or every day. The integrated laptop compartment comfortably fits most laptops up to 15.6" while the internal quick-access pockets holds mobiles, business cards and other daily utilities.

It's all in the details

Crafted with snow yarn polyester, this backpack is lighter, less bulky and makes carrying your things as comfortable as possible. The water-resistant finish seals your laptop and accessories from moisture or any wear and tear.

Your perfect companion

With a modern and minimal design, this backpack has plenty of space for everything. It can easily fit a range of devices including Yoga 720-15, Ideapad 520-15 and comes in 4 understated colours to choose from.

Lenovo 10e Chromebook Tablet Protective Case

Specifications

Compatibility: Fits Lenovo 10e Chromebook Tablet

Color: Black (edges) and clear (body)

Outside Fabric Material: Polycarbonates (PC) & Thermoplastic polyurethane (TPU)

Weight: 130g (0.29lbs)

Dimensions: Width: 281 (11.06) Depth: 188 (7.40) Height: 25mm (0.98")

Part Number

4X40X59073

Designed to protect

Made from lightweight, durable materials with reinforced edges and corner bumpers to protect against damage. So, whether learning in a classroom environment or using it on the move, the 10e Chromebook Tablet is well-protected.

Easy to use and remove

Intuitive snap-fit design for everyday convenience. Simply snap it on to install and snap off to remove – no tools or excessive effort required. Provides unobstructed access to tablet ports, buttons and touchscreen functionality.

Asset tagging and styling

Translucent backside with a clear window allows for effortless asset tagging. The case can also be styled to suit individual or organizational preferences with custom colours.

ThinkPad X1 Active Noise Cancellation Headphones

Specifications

Headphone:

Headphone Driver : 40mm Neodymium
 Frequency Range : 20 Hz – 20 kHz

Certifications : Skype for Business

Part Number

4XD0S92991

One device, two modes

Switch between two settings. 'Work mode', which provides the Skype for Business certified microphone, quality HD audio and in-line call control, and 'play mode' for connecting with any device and enjoying crisp sound quality.

Speedy set-up

Designed for seamless VoIP calls with hassle-free plug and play connectivity. This enables users to manage calls quickly and easily with an in-line control box, featuring large buttons and LED indicators.

Enhanced audio experience

The noise-cancelling microphone is perfect for professionals working in loud, open-plan offices. Background noise is reduced and the HD audio via USB ensures that every single word is heard loud and clear.

Lenovo 700 Ultraportable Bluetooth Speaker

Specifications

- Frequency Response:** < 220 Hz - 20 kHz
- Rated Power:** 4W
- Signal-to-Noise Ratio:** >80 dB
- Voice Assistant Compatibility:** Yes
- Battery Type:** Lithium Polymer, 3.85 V, 2430 mAh
- Charging Time:** 2 Hours
- Battery Life:** Up to 12 Hrs
- Auto-Power Off:** Yes
- USB-C Input:** 5V, 1.5A
- Bluetooth Version:** Bluetooth 5.0
- Connectivity:** up to 2 Devices Simultaneous Connection
- Audio Coding:** SBC / AAC / mSBC
- Wireless Range:** up to 10 m
- NFC:** Yes
- Dimensions:** Depth: 75mm (2.95") Width: 165mm (6.5") Height: 11mm (0.43")
- Weight:** Starting at 145g (0.32lbs)

Part Number

4XD0T32974

Discreet portability, advanced design

At only 11 mm (0.43"), this Bluetooth speaker is happy to travel. Robust build quality and IPX2 splash-resistance. Can be controlled using a physical touch panel, Siri support, Google Assistant and Cortana.

Unparalleled audio quality

Hardware and software work in harmony to create a category-leading sound. This device outputs an impressive range and rich tones in 360°, delivered through quad speakers. Made to take music and conferencing to the next level.

Connectivity on-the-go

Supporting up to two devices simultaneously, this Bluetooth 5.0 speaker also features NFC and a functional USB-C port. Its 2430 mAh battery supports up to 12 hours of playback, and it will fast-charge in 2 hours.

Lenovo 100 Stereo USB Headset

Specifications

Connectivity : USB-A

Speakers

Driver Size : $\Phi 30$ mm
Sensitivity : 116 dB +/- 3 dB @ 1 kHz
Frequency Range : 20 Hz ~ 20 kHz

Microphone

Type : Directional
Sensitivity : -41 dBV/Pa +/- 3 dB
Frequency Range : 100 Hz ~ 16 kHz
Noise Cancellation : Yes

Cord Length : 1.8 m (70.7")

Dimensions : Width: 173 mm (6.81") Depth: 174.5 mm (6.87") Height: 60 mm (2.36")

Weight : 137 g (0.3 lbs)

Part Number

4XD0X88524

Minimalist design

While lightweight, the Lenovo 100 Stereo USB Headset doesn't compromise on design or durability. Its protein leather, memory-foam ear cups and rotatable boom microphone deliver an experience that is comfortable and convenient.

Professional quality

The Lenovo 100 Stereo USB Headset's 30 mm audio drivers with neodymium magnets pack a punch when playing media, and its passive noise-canceling keeps you immersed, wherever you are. Calls are crisp, clear, and easy to hear. Thanks to the professional boom microphone.

Business-ready

The included 1.8 m USB-A cable is a perfect length for office environments and works from the moment you plug it in. Support for Unified Communications platforms makes the Lenovo 100 Stereo USB Headset an ideal companion for business users.

ThinkPad X1 Leather Sleeve

Specifications

Compatibility : Sized to fit the ThinkPad X1 Carbon (Gen 6, 7 & 8) and ThinkPad X1 Yoga (Gen 4 & 5), may also fit other laptops 14" and under

Dimensions : Height: 370mm (14.57") Width: 250mm (9.84") Depth: 1.8mm (0.07")

Weight : 0.43kg (0.95lb)

Color : Exterior Black, Interior Gray

Materials : Exterior Genuine Leather, Interior Microfiber Lining

Special Features : Back slip pocket for storage of accessories; elastic storage loop for pen or stylus

Part Number

4X40U97972

Slim-line storage

Thin enough to fit inside another bag, this sleeve provides room for a laptop and extra easy-access storage for meeting essentials.

Timeless luxury

Craftsmanship quality, classic black leather exterior, and soft-touch gray interior provide unparalleled elegance while protecting Lenovo notebooks against scratches, dents, and bumps.

Inspired design

A dedicated slot keeps the user's pen or stylus always within reach, making it easy to take notes or draw on-the-go.

ThinkPad Professional Roller Case

Specifications

- Compatibility:** Fits ThinkPad laptops up to 15"
- Outside Fabric Material:** 45% Nylon, 34% Polyester, 13% PVC, 9% PU
- Padded Notebook Compartment:** Yes
- Color:** Black
- Dimensions:** Width: 350 mm (13.78") Depth: 196.9 mm (7.75") Height: 508 mm (20.0")
- Weight:** 2.82 kg (6.64 lbs)

Part Number

4X40E77327

Travel-friendly Design

Light-weight, vertical design, telescoping trolley handle and swivel wheels make traveling so much easier.

ThinkPad & Tablet Storage

By combining a computer case and suitcase, this roller case has organized storage for your ThinkPad computer, tablet, accessories and comes with a separate compartment for clothes and shoes.

Ample Storage

Large storage area for clothes, shoes and other travel needs. Front pockets for quick access to travel essentials.

ThinkPad Professional Backpack

Specifications

Device Storage: supports laptops up to 15.6", with a separate padded pocket to protect smaller devices

Main Storage: includes workstation, key fob, and additional accessory pockets

Convenience:
Two zippered water-bottle pockets
Trolley strap
Lumbar security pocket

Dimensions: Width: 381mm (14.98") Depth: 262mm (10.31") Height: 34mm (1.33")

Color: Black

Weight: 1.16kg (2.56lbs)

Part Number

4X40Q26383

Modern design

A streamlined, sleek backpack for both work and travel. The perfect combination of durable and functional.

Premium materials

Lightweight, weather-resistant fabric provides resilient protection for the laptop and other stored belongings while being easy to carry.

Convenient features

Smartly designed compartments to store belongings. Keep important devices safe and secure on the move with a PC compartment, a pocket for a tablet, a large storage area and pockets for accessories and personal items.

ThinkPad Essential Topload

Specifications

Compatibility: ThinkPad notebook computers up to 15.6" wide

Color: Black

Product Dimensions: Width: 396.2mm (15.63") Depth: 63.5mm (2.5") Height: 307.3mm (12.1")

Weight: 0.54kg (1.2lb)

Outside Fabric Material: 97% Polyester, 3% PVC

Padded Notebook Compartment: Yes

Part Number

4X40E77328

Compact, lightweight, secure

Keep essential hardware safe on the move; this topload case provides reliable protection to support today's flexible and increasingly mobile working style.

ThinkPad aesthetics

Red accent colors have been strategically placed on the zipper pull and shoulder strap, adding subtle design touches to perfectly complement the familiar ThinkPad brand.

User-friendly design

Made with busy professionals in mind, this compact case features a protective, padded compartment that can hold a ThinkPad device securely. It's comfortable to carry too, with broad shoulder straps, padded handles and additional storage space for accessories.

ThinkPad Essential Backpack

Specifications

- Color:** Black
- Compatibility:** ThinkPad notebook computers up to 15.6" wide
- Package Type:** Polybag
- Outside Fabric Material:** 100% Polyester
- Padded Notebook Compartment:** Yes
- Dimensions:** Width: 114.3 (4.5) Depth: 457.2 (18.0) Height: 342.9mm (13.5")
- Weight:** 0.7kg (1.5lbs)

Part Number

4X40E77329

Exclusive to ThinkPad

This functional backpack is compatible with ThinkPad notebooks up to 15.6". Red accent zipper-pull complements ThinkPad styling.

Limited lifetime warranty

Business travellers can rest assured that this durable backpack will stand the test of time, with included limited lifetime warranty.

A commuter's best friend

A separate, padded compartment has been designed to securely hold a ThinkPad, and protect it from damage in transit. With additional features including storage pockets and a side water bottle holder, it's the perfect accessory for on-the-go professionals.

ThinkPad Active Backpack

Specifications

Compatibility: ThinkPad up to 15.6" screen size

Color: Black

Package Type: Polybag

Outside Fabric Material: 100% Nylon

Padded Notebook Compartment: Yes

Dimensions: Width: 167.6mm (6.6") Depth: 492.8mm (19.4") Height: 289.6mm (11.4")

Weight : 0.46kg (1.0lbs)

Part Number

4X40L45611

Durable and functional fabric

Purpose-built using lightweight, weather-resistant, and resilient nylon.

Laptop & Tablet Protection

Compartments are conveniently designated for storing a computer and tablet. This bag keeps important devices safe and secure on-the-move.

Facilitates movement. Enhanced comfort

Air-mesh back panel and shoulder straps with removable sternum strap helps the user stay cool and find the right fit.

ThinkPad 15.6" Essential Messenger

Specifications

Device Compatibility: Supports Lenovo and ThinkPad laptops up to 15.6"

Secure Storage: Front flap with buckle closure for convenient access and extra protection

Front/Rear Pockets: Zippered front pocket and a rear pocket with Velcro closure provide additional storage space

Interior Organization:
Main compartment includes padded laptop sleeve with secure webbing strap
Large pocket for books or notepads
Zippered pocket for smaller accessories

Color: Black

Material: Ripstop and matte nylons (100% polyester)

Dimensions: Width: 413mm (16.25"), Depth: 80mm (3.5"), Height: 305mm (12")

Weight: 0.75kg (1.66lbs)

Part Number

4X40Y95215

Lightweight. Portable.

Designed for mobility, the messenger holds essentials close to the body, making it ideal for use on bicycles or public transit.

Easy access

Unlocking the secure buckle closure and flipping open the front flap reveals a spacious interior that offers visibility and easy access to all stored essentials.

Smart. Casual.

Professional workers, commuters, and students will appreciate the messenger's polished yet casual styling, which make it versatile for work and beyond.

ThinkPad 15.6" Basic Topload

Specifications

Device Compatibility: Supports Lenovo and ThinkPad laptops up to 15.6"

Secure Storage: Designated pockets to carry and protect your laptop and other essentials

Functional Features:
Quick-stash pocket with front zipper
Convenient luggage strap

Durability & Weather-resistance: Made of lightweight materials that offer reliable protection against the elements

Color: Black

Material: Nylon (100% Polyester)

Dimensions: Width: 420mm (16.54"), Depth:51 mm (2.01"), Height: 293mm (11.54")

Weight: 0.31kg (0.68lbs)

Part Number

4X40Y95214

Durable. Minimalistic.

Built to handle the rigours of everyday use with minimal openings and water-resistant material that help protect the stored device and accessories against the elements.

Functional. Cost-Effective.

Every detail of this bag was designed with purpose. Like the designated slip pocket to securely hold the laptop, spacious area for other items, front zippered quick-stash pocket, and luggage strap on the back.

Lightweight. Stylish.

Travel light and in style. With sleek, clean lines that present a professional outlook, this topload has plenty of space to hold everyday work essentials without adding bulk or weight.

ThinkPad 11.6" Work-in Case

Specifications

Compatibility: ThinkPad 11e and Lenovo N22 systems up to 11.6" wide

Color: Black

Package Type: Polybag

Outside Fabric Material: 70% Polyester, 30% Polyurethane (PU)

Padded Notebook Compartment: Yes

Dimensions: Width: 54.0mm (21.3") Depth: 323.9mm (12.75") Height: 330.2mm (13.0")

Weight : 0.53kg (1.17lb)

Part Number

4X40L56488

Safe from impact

Ruggedized for outdoor use or some industrial use cases. The patented SafePort air protection system has been built-in to the case, providing a shield for devices against bumps and scrapes.

Practical and robust

Not only do devices remain secure during transportation, the non-slip rubber back prevents the case from slipping on any desk or surface too. For added comfort, a non-slip padded shoulder strap keeps the case firmly in place.

2-Compartment Design

Designed with active professionals and students in mind, simplifying life on the go. Belongings can be easily organized with a designated device section and an outer zipped compartment for AC adapters, pens and accessories.

Lenovo Adjustable Height Arm

Specifications

Applicable Monitors : Attaches to 75mm or 100mm VESA mountable displays that weigh up to 9.1kg (20lbs)

Motion User Force : <7.5kgf (16.5lbf) through the range of motion

Height Adjustment Range : Available arm motion of 320mm (13")

Pole Height : Short Pole – 160mm (6.3")

Weight Adjustment for Lift Feature : Yes, with 4mm hex tool (provided)

Tilt Adjustment Range : 75° (70° back, 50° forward)

Portrait/Landscape Feature : Supported

Side to Side Pan : 180° total

Security: security cable

Cable Management: Yes, concealed underside of the arm and via the Cable loop on the mount bracket

Part Number

4XF0H70603

Safety first

Perfect for professionals with work-related physical health concerns. It's been ergonomically designed to promote wellness by improving posture, aiding acceptable eye alignment and supporting neck and shoulder comfort throughout the working day.

Efficient use of space

By placing the monitor above the desk, more surface space is created and less clutter. For added flexibility, the arm can be repositioned in a single, effortless motion.

Increased productivity

By placing the monitor at the user's most ergonomically appropriate viewing height, efficiency levels are improved and productivity is naturally increased.

Lenovo Dual Platform Notebook & Monitor Stand

Specifications

Notebooks Supported: Supports any laptop up to 15.6"

Docks Supported: Retaining brackets for ThinkPad Docking Station (2013) series. Universal USB docks may also be placed on the lower platform (without using retaining brackets).

Monitors Supported : Up to 16kg (35lbs)

VESA Compatibility: Underside of upper platform has VESA mount for adding Tiny PC mounting bracket

Cable Management Feature: Rear cable management loop + concealed cable management in the bottom of the base

Part Number

4XF0L37598

Ergonomic viewing

Place a monitor on the top platform to support easy setup and better ergonomics with a higher viewing angle.

Cable and Accessories Management

Rear cable management loops and concealed cable management in the bottom of the base help to keep the workspace tidy. Lower platform features retaining brackets for ThinkPad Docking Station (2013) series, enabling a tidy and compact work space.

Integrates with ThinkCentre Tiny

Underside of upper platform has a VESA mount for adding a Tiny PC mounting bracket, enabling the PC to be discreetly fixed in place, leaving the bottom shelf for storage or peripherals.

ThinkCentre Nano DIN Rail Mount

Specifications

Dimensions: Depth: 136mm (5.35"), Length: 132mm (5.19"), Height: 36mm (1.42")

Weight: 65g (0.14lbs)

Height Lock: Via screw connection

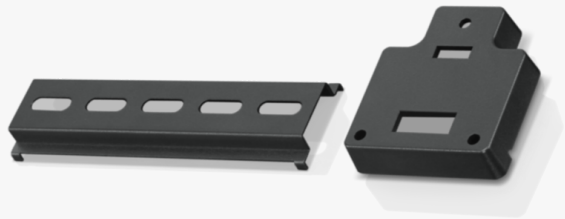

Physical Security: Via Screw connection

Supported weight Range: up to 5kg (11.02lbs)

Tilt Lock: Via Screw connection

Part Number

4XF0V81629

Industry-specific solution

Can be bridged onto industrial DIN Rail Racks to provide a fully integrated solution in manufacturing or industrial user cases.

Easy to deploy

Designed exclusively for ThinkCentre Nano and ThinkCentre Nano IoT PCs. Installation is quick and simple, using a standard cross screwdriver.

ThinkCentre Nano Monitor Clamp

Specifications

Product Dimensions : Width: 67mm (2.65"), Length: 82.5mm (3.25"), Height: 67mm (2.64")

Product Weight : 222 g (7.83 oz)

Supported PC Weight : 5 kg (11.02lbs)

Color : Black

Compatibility : with ThinkCentre Nano & Nano IoT PCs and ThinkVision T-Series and P-Series monitors (except P32u and P44w)

Part Number

4XF0V81633

Optimize desk space

Secures a ThinkCentre Nano to the stand of selected ThinkVision monitors to create a cleaner working environment and a better user experience.

ThinkCentre Nano Power Cage Kit

Specifications

Dimensions : Depth: 150mm (5.90"), Length: 227mm (8.94"), Height: 43mm (1.70")

Weight : 441 g (0.97lbs)

Height Lock : via screw connection

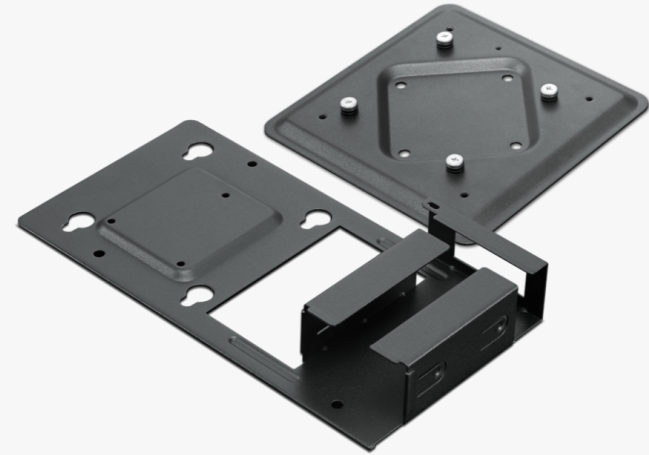

Physical Security : via screw connection

Supported weight Range : up to 5 kg (11.02 lbs)

Tilt Lock : via screw connection

Part Number

4XFOV81631

Powering PCs

Effortlessly integrate a power adaptor with a Nano or Nano IoT PC. Simply secure the power adaptor alongside the Nano or Nano IoT PC to make cable routing organised and hassle-free.

Flexible design

This kit is also VESA compatible, enabling users to mount the device to a wall, on top of a desk or any other compatible surface for added flexibility

Adapter compatibility

Power slot has been tailored to fit standard 65W and 90W Lenovo power adapters that are smaller than 105x44x28mm (4.1x1.7x1.1").

ThinkCentre Nano T10 Cube

Specifications

Product Max Dimensions : Width: 182mm (7.17"), Length: 179mm (7.04"), Height: 36.5mm (1.44")

Product Weight : 200 g (7.05 oz)

Connectivity : 2x USB-A

Supported PC Weight : 5 kg (11.02 lbs)

Color : Black

Compatibility : with ThinkCentre Nano fan model PCs

Part Number

4XF0V81632

Create an integrated PC and display

Allows you to configure an all-in-one PC using a ThinkCentre Nano. Simply insert the Nano into the T10 Cube and then slide them into the dedicated bay at the rear of a ThinkCentre Tiny-in-One display. This solution works with any Tiny-in-One in the portfolio, including 22", 24", and 27" screen sizes.

Mount behind any VESA-compatible display

Use in combination with the ThinkCentre Tiny VESA Mount II (sold separately) to install a Nano PC behind any VESA-compatible monitor or TV.

ThinkCentre Nano VESA Mount

Specifications

Dimensions: Depth: 150mm (5.91"), Length: 150mm (5.91"), Height: 13mm (0.51")

Weight: 312g (0.69lbs)

Height Lock: via screw connection

Physical Security: via screw connection

Supported weight Range: up to 5kg (11.02lbs)

Tilt Lock: via screw connection

Part Number

4XF0V81630

Conveniently versatile

Features the universal VESA mount configuration, enabling users to attach the ThinkCentre Nano to any VESA-compatible device, or to mount it on a wall, ceiling or under the desk to save space or for specialist use-cases.

Easy to deploy

Designed exclusively for ThinkCentre Nano and ThinkCentre Nano IoT PCs. Installation is quick and simple, using a standard cross screwdriver.

ThinkCentre Tiny Clamp Bracket Mounting Kit II

Specifications

Compatible systems: All ThinkCentre Tiny that supports VESA Mount II

Color: Black

Weight: 425g (0.94lbs)

Set up includes: Clamp bracket kit and screws

Part Number

4XF0N82412

Made for the Tiny

Part of the ThinkCentre Tiny ecosystem, this cleverly designed 3-part bracket mounts the ThinkCentre to ThinkVision monitors.

Maximize the workspace

With its innovative space-saving design the new Tiny Clamp bracket is simple to set up and allows users to get the most out of their workspace environment.

ThinkCentre Tiny Sandwich Kit II

Specifications

- Color:** Black
- Material:** Made from high-grade steel
- Convenience:** Easy access ports
- Weight:** 927g (2.04 lbs)

Part Number

4XH0N04098

Secure, space-saving solution

The Tiny Sandwich kit enables more desktop and floor space while providing a secure solution to protect your Tiny PC.

Reliable and easy to use

Compact design constructed from high-grade steel; comes with screws that allows anybody to mount it with ease

Full access to ports

The open architecture provides easy access to various ports and control buttons of the ThinkCentre Tiny PC.

ThinkCentre Tiny Storage Unit

Specifications

Host interface: USB2.0 high speed

Data buffer capacity: 1.0MB

Dimensions: Width: 186.5mm (7.34"), Length: 183mm (7.2"), Height: 64mm (2.52")

Weight: 570g (1.26lb)

Part Number

0B47375

Lenovo ThinkCentre Tiny Storage Unit

Easy deployment

Includes a USB cable which connects to a ThinkCentre Tiny VESA mount and fixes the Storage Unit securely onto the Tiny PC. Just takes a minute to install.

Performance boosting

Enables users to enhance device capabilities by adding a DVD burner, DVD ROM or 2nd HDD (all sold separately) to any ThinkCentre Tiny PC

ThinkCentre Tiny Under Desk Mount Bracket

Specifications

Compatible Systems : ThinkCentre Tiny all generations M7, M8, M9 series

Color : Black

Dimensions : Width: 199mm (7.83"), Depth: 105mm (4.13"), Height: 228.9mm (9.02")

Packed Weight : 0.757kg (1.67lbs)

Part Number

0B47097

Optimized use of space

Save desk and floor space with the ThinkCentre Tiny Under Desk Mount Bracket, made from high-grade steel for optimal protection. It is easy to install under a desk or any VESA-compatible furniture or surface, using just four screws. Also requires ThinkCentre Tiny VESA Mount II for mounting of the Tiny PC to the Under Desk Mount Bracket.

Easy access to controls

The open architecture provides easy access to media drives and control buttons of the ThinkCentre Tiny PC for a seamless user experience. Also provides space for a ThinkCentre Tiny Storage Unit or other external storage/DVD drive.

ThinkCentre Tiny VESA Mount II

Specifications

Compatible Systems : All generations of ThinkCentre Tiny M6, M7, M8, M9 series

Configuration type : Universal VESA compatible

Packed Weight : 487g (1.07lbs)

Part Number

4XF0N03161

Clutter-free

Mounting option designed to house a Tiny PC. The universal VESA mount configuration allows attachment to anything that is VESA compatible - behind a monitor or mounted on a wall - for a clean, clutter-free set-up.

Expand capabilities

This mount is necessary to enable other Tiny accessories such as ThinkCentre Tiny Storage Unit, ThinkCentre L-Bracket Mounting Kit and ThinkCentre Tiny Under Desk Mount Bracket.

Expansion MIC for MeetUp

Specifications

Connectivity : Bluetooth, SuperSpeed USB 3.0

Connection Type : Plug-and-play

Indicator Lights (LED) : LED indicator confirms video streaming, microphone mute, on-hold, and Bluetooth pairing, etc.

Microphone Type : Mono, wideband, noise canceling

Cable Length : 6m

Dimensions : Width: 83mm (3.27"), Depth: 83mm (3.27"), Height: 13.4mm (0.53")

Weight : 302g (0.66lbs)

Part Number

78011322

All-in-one design

Combining a low-distortion Logitech-engineered lens, Ultra HD 4K optics and three camera presets, this intelligent camera delivers premium video quality. Users experience exceptional sound too with its integrated audio, optimized for conference and huddle room acoustics.

Adaptable for varied room sizes

Designed with different conference and huddle room configurations in mind, customers can be assured of flexibility. The product offers multiple mounting options too, which further enhances its room-capturing 120° field of view.

Customer-centric solution

Features intuitive USB plug and play simplicity, ready for use with any leading video conferencing software application or cloud service. With its elegant and compact design, cable clutter is minimized too.

Lenovo 500 FHD Webcam

Specifications

Interface : USB Type-C

Supported OS : Windows 10 (32-bit/64-bit)

Resolution

RGB Mode : 1920 x 1080 (MJPG) @ 30 frame rate (default)

IR Mode : 352 x 352 @ 15 frame rate

IR Sensor : Supported

Zoom : Supports digital 4x zoom

Focus : Fixed-Focus

Field of view : 75°

Rating : 5V 900 mA

Windows Hello Certified : Yes

Optimized for Microsoft Teams : Yes

Dimension : Width: 107mm (4.21"), Depth: 63mm (2.48"), Height: 50.4mm (1.98")

Weight : Starting at 123 g (0.27 lbs)

Color : Black

Clip : Tripod-ready universal clip fits laptops, desktop, and other LCD monitors

IR LED : Red

LED Color : White

Part Number

4XC0V13599

Premium Video

High-quality video conferencing at 1080p resolution. The 75° field-of-view and 4x digital zoom allow users to easily adjust what is in scene.

Flexible Controls

Supports a range of mounting options from top-of-monitor to tripod, wide-angle pan/tilt controls, support for 360° lens rotation, as well as an integrated privacy shutter.

Business Ready

Works with Windows Hello facial recognition, enabling users to login to the PC without needing to type a password.

4XC1B34802

Just Like The Real Thing

The innovative FHD 1080P camera delivers perfect high-resolution video during video calls; set the scene with its ultra-wide 95° lens and 4X digital zoom while 2x built-in mics capture crisp stereo audio from all directions.

Easy Plug-and-Play Setup

Simply unpack and unfold the camera when you want to do a call, and plug the USB 2.0 cable into any Windows or Mac device. No drivers necessary.

Mount Anywhere & Everywhere

With a 1.8 metre cable, tripod support, and a flexible mounting mechanism, users can attach this webcam almost anywhere. Even difficult angles work, thanks to the wide-angle lens, tilt controls, and 360° rotation support. Just mount it, tilt it, and open the privacy shutter.

Logitech BRIO

Specifications

Connectivity : USB 2.0 Type A and USB 3.0 Type A and USB Type-C connections

Compatibility :
 Certified for Skype for Business and ready for Teams
 Certified for Zoom Meetings
 Fuze Certified
 Microsoft Cortana
 Windows Hello
 Cisco Jabber

4K Streaming and Recording :
 Windows: Works with Camera for Windows 10, XSplit, OBS
 Mac: Works with SwiftCapture

Supported Resolutions :
 4K video calling (up to 4096 x 2160 pixels @ 30 fps)
 1080p Full HD video calling (up to 1920 x 1080 pixels @ 30 or 60 fps)
 720p HD video calling (up to 1280 x 720 pixels @ 30, 60, or 90 fps)

Field of View :
 Diagonal: 90°
 Horizontal: 82.1°
 Vertical: 52.2°

Digital zoom : 5x in Full HD

Autofocus : Yes

Optional camera settings : control of pan, tilt, and zoom

Mics : Built-in dual omni-directional mics with noise cancellation

Mounting options : clip mount and tripod mount

Security : privacy shutter

Camera Dimensions : Width: 102mm (4.01"), Depth: 27mm (1.06"), Height: 27mm (1.06")

Camera Weight : 63g (2.22oz)

Clip Dimensions : Width: 36mm (1.42"), Depth: 19mm (0.74"), Height: 63mm (2.48")

Clip Weight : 44g (1.55oz)

Cable Length : 2.2m (86")

Part Number

78010686

Packed with innovative features

Users are guaranteed professional-quality video with a 5x digital zoom, high frame rates, outstanding low-light performance, HDR, and RightLight. It can be mounted onto any LCD screen, notebook or table top, using the inbuilt clip.

Every detail captured

Stream crystal clear video content with exceptional resolution, frame rates and color quality. The camera delivers 4K resolution at 30fps or 1080p at 60fps for outstanding clarity and detail.

Facial recognition technology

There's no need for passwords when accessing Windows 10, thanks to the camera's optical and infrared sensors. Users can simply look into BRIO's lens to login securely.

ThinkSmart Cam

Specifications

Resolution : USB 3.2 Gen 1 Cable: 4K at 30fps, 1080p at 60/30fps, 720p at 60/30fps, 360p at 60/30fps

USB 2.0 Cable: 1080p at 30fps, 720p at 30fps, 360p at 30fps

Supported OS : Windows 10

Field of View : 100° Horizontal/68° Vertical/125° Diagonal Field of View

Dimension : Length: 105mm; Depth: 60.5mm; Height: 36mm

Color : Black

Connectivity : USB3.2 Gen1 TypeC

Power Input: 2.5 W

Part Number

4Y71C41660

Optimized For Video Conference Collaboration

From home offices or huddle rooms to medium and large conference rooms, it captures everyone and everything thanks to its wide field of view. Its high resolution and frame rates—up to 4K at 30fps and 1080p at 60fps—eliminate lag and distortion.

Built With Artificial Intelligence

An integrated VPU with AI Conference Meeting Functions (AI features are controlled via ThinkSmart Manager - available with the purchase of a ThinkSmart compute).

Designed For Seamless Integration

From its compact, lightweight design to its certified compatibility with Microsoft Teams Rooms and Zoom Rooms, it fits seamlessly into any modern office environment. It can easily be set up as a standalone device or mounted to a wall or TV.

ThinkSmart Bar

Specifications

Speakers: Loudness up to 97dB, Power output 20+20W with 4 speaker units, Built-in DSP for echo and noise-cancellation, Speaker frequency range 250Hz to 20KHz

Microphones: 4x built-in mics with 180° coverage, Microphone frequency range 300Hz to 8KHz, Range up to 8.5m+ (1Mic pod is only available for X-Large room solution and beyond)

Built-in Buttons: Power, mute, Bluetooth, volume up/down

Connectivity: USB 2.0, USB-C connector, Bluetooth 5.0 (Supports Bluetooth connectivity via phone only. Does not support Bluetooth via PC.)

Dimensions: Width: 800mm (31.5")x Height: 55mm (2.2")x Depth: 90 mm (3.5")

Weight: 1.9 kg (4.2 lbs)

Mounting: Standalone (tabletop), Wall and TV mounting options

Certification and Compatibility: Microsoft Teams Rooms-certified, Zoom Rooms-compatible

Part Number

11RTZ9ARUS

Outstanding Sound

Four built-in mics with 180-degree wide-angle coverage make for a truly immersive meeting room audio experience, while integrated DSP noise cancellation eliminates distracting echoes and background noises.

Super Scalability

It has the speaker and mic range of 8.5m to accommodate a wide range of room sizes. Two additional satellite mics with 6m cable are available with purchase of X-Large room solution.

Seamless Integration

Simply set up as a standalone device or mount to a wall or TV. Manageability is just as easy—simply activate and manage ThinkSmart Bar as a plug-and-play device using the ThinkSmart Manager console (available with the purchase of a ThinkSmart compute).

Logitech PTZ Pro 2

Specifications

- Power :** AC Power adapter with regional plugs
- Mount :** Dual-purpose bracket works for both wall mounting and tabletop elevation

- Camera:**
Dimension : Width: 131mm (5.16"), Depth: 130mm (5.12"), Height: 146mm (5.75")
Weight: 580 g (1.28lbs)
- Remote :**
Dimension : Width: 50mm (1.97"), Depth: 120mm (4.72"), Height: 10mm (0.39")
Weight: 48 g (1.7 oz)

Part Number

5617634

Premium camera lens

Offers optical accuracy, creating the illusion that remote participants are all together in the same room. Users experience bright, crisp video quality with accurate color rendition and sharpness, even when zoomed in.

Flexible functionality

Pan, tilt and zoom with the hand-held remote control and see the whole conference room, auditorium, classroom or workspace, and every participant too. The camera can also be operated from a remote location with easy-to-use downloadable software.

USB plug and play connectivity

Designed as an out-of-the-box solution, its easy to deploy and use. Simply connect the camera to a computer or laptop via USB. Also includes mounting hardware for table top and wall mounting.

Logitech MeetUp

Specifications

- Certifications :** Certified for Skype® for Business, Cisco Jabber™ compatible, Windows, Mac, Microsoft Cortana certified
- Mics :** Three broadside beamforming, omni-directional microphones
- Supports resolutions :** 4K (Ultra HD), 1080p (Full HD) and 720p (HD)
- Focus :** 5x HD zoom
- Pan / tilt :** Motorized, expand field of view even further—up to 170°
- Field View :** Super-wide 120° field of view
- Security :** Kensington lock slot
- Camera Dimensions :** Width: 398.78mm (15.7"), Depth: 104.14mm (4.1"), Height: 83.82mm (3.3")
- Weight :** 1.03 kg (2.29lbs)
- Connectivity Technology :** Wired, wireless
- Cables Included :** 1 x USB-C cable - 16.4 ft

Part Number

78010685

Wide-angle lens

With a 120° field of view (FOV), every person around a conference table or in a huddle room can be seen on camera. Its motorized pan/tilt function widens that FOV even further if required - up to 170°.

Optimized audio experience

Meetings sound as good as they look. The camera's integrated audio with a custom-tuned speaker has been specifically designed to deliver consistently high- quality sound, even in huddle rooms with more challenging acoustics.

Out-of-the-box set-up

With USB connectivity, it is simple for customers to use with their existing video conferencing software application and cloud service. Its compact all-in-one design minimizes cable clutter too.

Lenovo USB-C Mini Dock

Specifications

Compatible system: 2019 & later ThinkPad, Lenovo V series and ThinkBook systems

Docking Interface: via USB-C port

Supported OS: Windows 7, Windows 10

Maximum Video Output: 1x 4K @ 60Hz

Maximum number of displays supported: 1

Charging to system: 45W

Video ports:

1x HDMI

1x VGA

USB:

1x USB 3.1 Gen 1 (Type-A)

1x USB 3.1 Gen 1 (Type-C)

1x USB 2.0

Audio: 1x 3.5 mm combo

Networking: Gigabit Ethernet port

Power: 1x USB-C Power-In port

Cable Length: 240 mm (9.45") undetachable cable

Color: Iron Grey

Dimensions: Width: 180mm (7.09") Depth: 53mm (2.09") Height: 17mm (0.67")

Weight: 156g (0.3lbs), without power adapter

PXE Boot: selected ThinkPad laptops

Wake-on-LAN: selected ThinkPad laptops

MAC address pass-through: selected ThinkPad laptops

Part Number

40AU0065XX

One cable, endless capabilities

Easily connect to an external 4K or 1080p display with HDMI or VGA, wired RJ45 network, two USB-A devices, and USB-C power pass-through – all via a single USB-C cable that disappears inside the minimalist design.

Compact design, renowned brand

Compatible with Lenovo-branded USB-C notebooks, thanks to easy, driverless plug-and-play. Power notebooks up to 45W with the included 65W USB-C power adapter.

Enterprise networking and security

The Lenovo USB-C Mini Dock provides secure enterprise network manageability such as PXE boot and Wake-On-LAN. It also supports passing ThinkPad Mac through the dock for IT to identify the system in large networks accurately.

ThinkPad Hybrid USB-C with USB-A Dock

Specifications

Interface: USB-C cable with USB-C to USB-A dongle

Power : ThinkPad 135W AC adapter (Slim tip)

Power Delivery : Yes

Output Power : 90W

Video Ports :

2 x DisplayPort

2 x HDMI

Supports up to 2x 4K displays

External Monitors supported: up to 2

Refresh Rate: DisplayPort: 3840 x 2160 @ 60 Hz; HDMI: 3840 x 2160 @ 60 Hz;
Bundle DisplayPort 1 & DisplayPort 2 to the monitor: 5120 x 2880 @ 60 Hz

USB Ports :

3 x USB 3.1 Gen 2 (10 Gbps, 1 x always-on charging)

1 x USB-C (Gen 2, 5V / 3A power)

2 x USB 2.0

Ethernet (RJ45) : Gigabit Ethernet

Audio Combo Jack : Yes

Dimension : Width: 210 (8.27) Depth: 80.0 (3.15) Height: 30.0mm (1.18")

Weight : 480g (1.05lbs)

Network Manageability :

PXE Boot

Wake-on-LAN

MAC address pass-through

Part Number

40AF0135xx

One dock fits all

This docking station enhances the performance of Lenovo USB-C notebooks and tablets using USB-C connection, as well as previous generation notebooks through its USB-C to USB-A adapter.

Supports rich functionality

Supports dual 4K displays with DisplayPort and HDMI ports. A total of 6x downstream USB ports, including 1x USB-C and 3x USB 3.1 Gen 2 ports support fast data transfer to peripherals, and charging power.

Simplify enterprise management

Onboard Gigabit Ethernet with manageability features such as PXE boot, Wake-on-LAN from sleep mode, and MAC address pass-through.

ThinkPad Thunderbolt 3 Workstation Dock Gen 2

Specifications

- Docking Interface :** USB-C & Slim Tip Docking Interface
- Supported System :** wide range of ThinkPad laptops and mobile workstations
- Supported OS :** Windows 10, Windows 7
- Video :**
 - 2 x DisplayPort
 - 2 x HDMI
 - 1 x Thunderbolt 3 (USB-C) downstream (video/data)
- External display support:**
 - up to 1 display: 5K @60Hz
 - up to 2 displays: 2x 4K @60Hz
 - up to 3 displays: 1x 4K @60Hz + 2x 4K@30Hz
- USB ports :** 5 x USB 3.1 Gen 2 (1x Always-on charging)
- Audio :** 1 x 3.5 mm Combo
- Networking :** 1 x Gigabit Ethernet
- Power :** 1 x Slim Tip for 135W Power-In
- Power Delivery :** Yes
- Power Output :** 170W for ThinkPad workstations, 65W for ThinkPad notebooks
- Dimensions :** Width: 220mm (8.66"), Depth: 80mm (3.15"), Height: 30mm (1.18")
- Weight :** Starting at 525 g (1.16 lbs)
- Color :** Black
- Network Manageability :**
 - PXE Boot
 - Wake-On-LAN
 - MAC address pass through
- Security :** Kensington Lock Slot

Part Number

40ANY230xx

One cable, more space

A 230W adapter that's 30% slimmer than the previous generation - saving desk space without compromising on power output. Enables charging of a 170W Mobile Workstation or 65W ThinkPad via a single cable (slim tip power and ThunderBolt 3 dual cable head).

Expanded support, extra possibilities

1x ThunderBolt 3 (USB-C) downstream port and 5x USB3.1 Gen 2 ports support onward high-speed data connection to other devices. Supports up to 3 external displays at 4K resolution (1x 60Hz, 2x 30Hz) with a choice of DisplayPort, HDMI or the ThunderBolt 3 downstream port.

Superior networking

Onboard Gigabit Ethernet with manageability features such as PXE boot, Wake-on-LAN from sleep mode, and MAC address pass-through.

ThinkPad Ultra Docking Station (2018)

Specifications

Docking Interface: Dual USB-C and ethernet

Supported OS: Windows 10

Power: ThinkPad 135W AC adapter (Slim tip)

Video Ports: Maximum 3x 4K display @ 60Hz via 2x DisplayPort, 1x HDMI and 1x VGA

USB Ports: 4x USB 3.1 Gen 2 (10 Gbps) with 1x Always-On, 2x USB-C Port (10 Gbps data transfer and 5V/3A power)

Ethernet: Gigabit Ethernet

Audio Combo Jack: Yes

Dimension: Width:378 (14.88) Depth:159 (6.26) Height:54.1mm (2.13")

Network Manageability: PXE Boot, Wake-on-LAN, MAC address pass-through

Security: Kensington Lock Slot

Part Number

40AJ0135xx

Exclusive for ThinkPad

Supports mechanical connection to a ThinkPad, using dual USB-C connectors and an ethernet port to enable data, video and charging power to a ThinkPad. Compatible with all ThinkPad L, T, X and X1 series notebooks produced from 2018 onwards.

Enterprise security

Gigabit Ethernet supports vPro, PXE boot, Wake-on LAN and MAC address-pass through. Locking key enables a ThinkPad to be secured to the dock while the Kensington security slot supports tethering to a desk. Rapid charging functionality and mirrored power button make going mobile easier.

Connect 3 displays at 4K resolution

Provides a total of 6x USB ports including 2x USB-C ports supporting up to 10Gbps data transfer and 5V power for charging mobile devices. Connect 3 displays at 4K resolution (60Hz) via onboard DisplayPort and HDMI connectors. 135W power adapter provides enough energy to charge a ThinkPad laptop and power some monitors.

ThinkPad USB-C Dock Gen 2

Specifications

Compatible Systems: 2018/2019/2020 selected ThinkPad systems

Connectivity: USB-C

Cable Length: 1 meter

Video Ports:

2x DisplayPort

1x HDMI

Maximum Video Output:

1x 4K @ 60 Hz

2x 4K @ 30 Hz

3x 1080p @ 60 Hz

Maximum Number of Displays: 3

USB Ports:

2x USB-A 2.0

3x USB-A 3.1 Gen 2 (10 Gbps, 1 x always-on charging)

1x USB-C (10 Gbps, 5V, 3A)

Ethernet: Gigabit Ethernet

Audio: Stereo/Microphone Combo

Power Adapter Inside the Box: 90W

Maximum Power for Laptop Charging: 60W

Power Button to Control System Power: Selected ThinkPad Laptops

PXE Boot: Selected ThinkPad Laptops

MAC Address Pass-through: Selected ThinkPad Laptops

Wake-on-LAN: Selected ThinkPad Laptops

Part Number

40AS0090xx

One connection, no limitations

Transfer data at lightning-fast speeds, power a laptop, connect multiple displays and join to a network via Gigabit Ethernet. 6x downstream USB ports including 1x USB-C and 3x USB3.1 (1 with always-on charging) support connection of peripherals.

Supports up to 2x 4K or 3x Full HD displays

Break free from working on just a notebook. Experience vivid 4K on a single screen or take multitasking to the next level using dual 4K at 30Hz displays or triple 1080p displays.

Ready for command

Build workspaces with this as a centerpiece. Control ThinkPad systems with PXE Boot, System Wake-on-LAN from sleep mode, hibernate mode, and power off mode. It also supports MAC address pass-through.

ThinkPad Universal Thunderbolt 4 Smart Dock

Specifications

Weight: 69 g (0.15 lbs)

Color : Black

Cable Length: Keyboard- 1.8mm (0.71"); Mouse- 1.8mm (0.71")

Part Number

4X30179883

Space-saving design

Sleek and stylish design that keeps the workspace clean and fit for purpose. Plug and play wired USB connection.

Enhanced typing experience

Island-style keys and quiet key strokes deliver a polished, comfortable typing experience. The keyboard is protected from accidental spills by a waterproof membrane.

Accuracy and control

A 1600 DPI optical sensor ensures precise cursor movement. Both keyboard and mouse complement the design of a ThinkCentre or ThinkPad system.

Lenovo Essential Wireless Keyboard & Mouse Combo

Specifications

- Connectivity: Wireless, 2.4 GHz dongle
- Color: Black
- Battery Type: Mouse - 1 AA battery, Keyboard - 2 AA batteries
- Battery Life: Up to 12 months
- Mouse Resolution: 1200 dpi
- Mouse sensor: High-resolution optical sensor
- Mouse button: Left click, right click, scroll click
- Mouse button life: Up to 10 million clicks
- Weight: 60g (0.13lbs)
- Keyboard
 - Adjustable Feet: Yes
 - Form Factor (Key Profile): Quiet key strokes, Low profile, island style keys
 - Keyboard Key Lifecycle: up to 3 million clicks
 - LED Indicators: Yes for Caps Lock and Num Lock
 - Function Media Controls: Volume Up, Volume, Down, Mute, Play/Pause, Forward, Back
 - Weight: 582g (1.28lbs)

Part Number

4X30M39458 - US English

A cord-free lifestyle

Complete control of both your wireless keyboard and mouse combo with a simple 2.5GHz dongle.

Doesn't mind coffee

Durable design with a liquid-resistant, molded casing, your keyboard won't mind sharing a cup of your morning joe.

Avoid all the confusion

With LED indicators on the Caps Lock and Num Lock keys, easily avoid password typos.

Lenovo Fold Mini Keyboard

Specifications

Color : Black

Power : built-in li-ion battery

Battery Life : 40hrs (400mAh)

Connectivity : Bluetooth 5.0

Weight : starting at 180g (0.4 lbs)

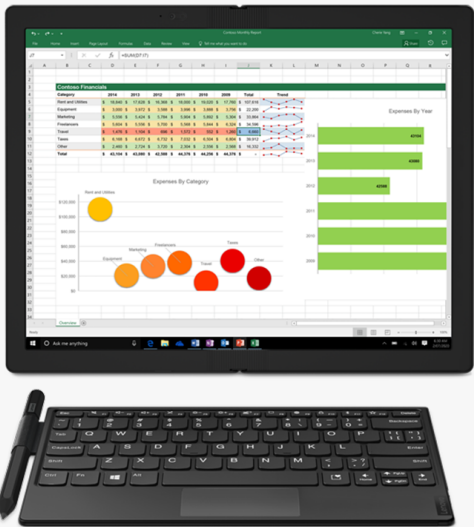

Keyboard Key Lifecycle : 5 million

OS compatibility : Window10

Dimensions : Length: 375mm (14.76"); Depth: 266mm (10.47"); Height: 50mm (1.97")

Part Number

4Y41B60251

On-the-go productivity

Unleash the power of productivity anytime and anywhere with this wireless full-size keyboard specially designed to complement the new ThinkPad X1 Fold.

Power-packed battery

Work without interruptions with a battery that lasts up to 40 hours. When running low, the keyboard can be charged wirelessly inside the X1 Fold or more quickly using a USB cable.

Smart design

The keyboard comes with a pen loop, touchpad and LED indicator that can turn green or orange to show the battery status or blue for Bluetooth pairing.

Lenovo Professional Ultralim Wireless Combo

Specifications

Connectivity : 2.4 GHz Radio Frequency via Nano USB Receiver (shared receiver with mouse)

Supported OS : Windows 10, Windows 7

Hardware Requirements : Supported PC with USB-A Port

Keyboard Specifications:

Power Requirement: 420 mAh Li-ion Battery
 Charging Cable: Micro USB Cable (included in box)
 Battery Life: Up to 3 Months in Single Full Charge
 Battery Charging Time: 2.5 Hours
 Color: Iron gray
 Keyboard Layout: Varies depending on language
 X-Direction Key Pitch: 19.05 mm
 Y-Direction Key Pitch: 19.05 mm
 Keyboard Key Lifecycle: up to 10 Million Clicks
 Dimensions: Width: 415 (16.33) Depth: 121 (4.76) Height: 12mm (0.47")
 Weight: starting at 590g (1.3 lbs)

Mouse Specifications

Power Requirement: 2x AAA Alkaline Battery
 Battery Life: up to 12 Months
 Color: Iron gray
 Sensor: Red Optical Sensor
 Resolution: Adjustable DPI (800, 1600, 3200)
 Scrolling: 2-way Scrolling (Up, Down)
 Buttons: 3 (Left, Right, Scroll)
 Button Life: up to 6 Million Clicks for Left and Right
 Button Dimensions: Width: 107 (4.21") Depth: 56 (2.2") Height: 32mm (1.26")
 Weight (with batteries): starting at 86 g (0.19 lbs)
 Charging Cable Length: 1.8m (5.9')

Part Number

4X30T25785

Comfortable and convenient

This keyboard and mouse combo has been ergonomically designed for ease of use and simplicity. The keyboard is just 12mm (0.47") thin and the mouse is just as compact, and comfortable too.

Maximize productivity

User-friendly design with strategically placed keys and buttons. Effortlessly glide from window to window using the adjustable 3200 DPI mouse and enjoy easy typing with the lightweight keyboard.

Hassle-free maintenance

2.5 zone keyboard features a built-in 3-month rechargeable battery and the mouse uses a 12-month AAA battery. There's no need to worry about losing power with this reliable combo.

Lenovo Professional Wireless Keyboard & Mouse

Specifications

- Connection Type :** 2.4 GHz wireless via nano USB
- Keyboard layout :** Full-size 3-zone keyboard layout
- Form Factor :** Low profile island style keys with premium typing experience
- Touch control :** One-touch dedicated media controls
- Adjustable Tilt Legs :** Yes
- Durability :** Spill-resistant design
- Protection :** 128-bit AES encryption protection
- Mouse Sensor :** 1600 dpi Laser sensor for precision tracking
- Mice Button :** 3 (left click, right click, scroll click)
- Scrolling :** Scroll wheel (up/down/left/right)
- Power Requirement**
 - Mouse - 2 AA batteries
 - Keyboard - 2 AA batteries

Battery Life : 2-Year commercial battery Life with LED indicators

Dimension
Keyboard: Depth: 164mm (6.46"), Length: 450mm (17.71"), Height: 20mm (0.80")
Mouse: Depth: 113mm (4.45"), Length: 64mm (2.52"), Height: 34mm (1.33")

Weight
Mouse - 80 g (0.18 lbs)
Keyboard - 700 g (1.54 lbs)

Part Number

4X30H56796

Work freely

A reliable 2.4 GHz wireless connection with multi-pairing protocol ensures a more comfortable experience - without the hassle of wires.

One port. Two accessories.

The plug and play wireless receiver easily connects both keyboard and mouse. There's no need to engage an extra USB port to connect.

Battery indicator

LED indicators show battery life status.

ThinkPad TrackPoint Keyboard II

Specifications

- Supported OS :** Windows 10, Windows 7, Android 9
- PC Systems :** Supported PC or Tablet with USB Port or Bluetooth
- Color:** Black
- Spill-resistant :** Yes
- Tilt adjustable :** Yes
- Key style :** Chiclet
- Switch type :** Scissor Switch
- Special features :** ThinkPad TrackPoint navigation, 6-point key entry for visually impaired
- Connectivity interface :** Bluetooth 5.0 and 2.4 GHz. wireless via nano USB-A receiver
- Bluetooth quick pairing :** Supports Microsoft Swift pair
- Battery :** Integrated rechargeable battery
- Battery life :** Up to 2 months in single charge
- Power requirement :** 5V, 0.5A via USB-C charging port
- Charging cable :** USB-C to USB-A (1 m) included.
- Dimensions:** Width: 306mm (12.05") Depth: 164mm (6.46") Height: 14mm (0.55")
- Weight:** 0.46kg (1.01 lbs)

Part Number

4Y40X49493

Same Experience, Less Space

Uses the same key-caps, 1.8mm key travel, actuation force, scissor switches, tactile feedback, and mouse-free TrackPoint as the ThinkPad notebooks, but repackages it in a compact form with 6-point entry for the visually impaired.

Cutting-Edge Connectivity

The TrackPoint II uses the latest, most stable 2.4 GHz wireless and Bluetooth 5.0 with Swift Pair support allowing users to quickly switch between two connected devices, whether they're running Android or Windows.

Impressive Battery Life

Integrated rechargeable battery lasts up to 2 months on a single charge. Better yet, just 15 minutes of charging via USB-C delivers up to a week of battery life.

Weight: 120 g (0.26 lbs)

Part Number

4Y50R20863

Reliable

Plug-and-play wired USB connection never fails. Fully tested to rigorous standards to ensure compatibility across Lenovo systems

Sculpted for comfort

Full-size mouse designed for all-day use. Ideal for both left- and right-handed usage.

High-resolution sensor

Features 1600 dpi optical sensor for precise and accurate tracking. Works well on most surfaces.

Lenovo Go USB-C Wireless Mouse

Specifications

Connectivity: 2.4GHz wireless technology

Color: Thunder black; storm grey

Scrolling: 2-way scroll wheel (up/down)

Resolution: up to 2400 dpi

Capacity: 380 mAh Integrated Rechargeable Battery

Battery life: Up to 3 months battery life (may vary based on usage)

Sensor: Blue optical sensor

Weight: Starting at 71 g (0.16 lbs)

Dimensions: Length: 100mm (3.95"), Width: 62mm (2.43"), Height: 34mm (1.35")

Part Number

4Y51C21216

Be Ready For Anything

Work whenever and wherever you please thanks to the lightweight design, precision blue optical sensor, and silent buttons of the Lenovo Go USB-C Wireless Mouse.

Do More With Less

Get all the productivity features you'd expect but in a smaller form. Adjustable DPI sensitivity, shortcuts for online meetings, and a utility button that can be programmed to do whatever you need it to, this mouse does not compromise.

Stay Connected Effortlessly

With up to 3 months rechargeable battery that reaches full charge in under 1.5 hours and a Lenovo Unified Pairing Dongle supporting multiple devices, staying connected has never been easier.

Lenovo Professional Wireless Laser Mouse

Specifications

Color: Black

Connectivity: 2.4 GHz Wireless via Nano USB

Wireless Range: 10 metres

Hardware requirements: Supports PCs with USB port

Supported OS: Windows 7, Windows 8, Windows 8.1, Windows 10

Special Features:

Ambidextrous design

Multiple pairing protocol with Lenovo 2.4GHz Wireless replacement receiver

Mice Button: 5 (left click, right click, scroll click, left/right tilt wheel)

Scrolling: Scroll Wheel (up/down/left/right)

Resolution: 1600 DPI

Sensor: Invisible laser sensor

Power: 2 AA batteries

Battery life: up to 24 months

Dimensions: Length: 64mm (2.52"), Depth: 113mm (4.45"), Height: 34mm (1.34")

Weight: 80g (0.18lbs)

Part Number

4X30H56886

Designed for All-day use

Designed for power users who want to work more effectively and efficiently, and provides ergonomic comfort for all-day use. The ambidextrous full-size design provides a secure grip whether you are left-handed or right-handed.

All-surface freindly

Suitable for use on many surfaces, the 1600 DPI resolution and laser sensor is perfect for tracking down to the tiniest detail. Complete tasks with ease and professional-grade accuracy.

Plug-and-play

Connects easily with 2.4GHz wireless USB connection for stable connectivity. Supports Multiple Pairing Protocol for USB dongles, just get a replacement dongle in case the original gets lost.

ThinkBook Bluetooth Silent Mouse

Specifications

Sensor: Blue Optical Sensor

DPI Resolution: 3-level Adjustable (800, 1600, 2400)

Scrolling: 2-way Scroll Wheel

Weight: Starting at 0.14lb (65g)

Supported OS: Windows 10; Chrome

Battery Type: 1 x AA

Battery Battery Life: Up to 12 Months

Part Number

4Y50X88824

Work comfortably

Low-profile, minimalist design that is comfortable to rest a palm on during extended use, and makes it easy to fit into pockets and carry around.

Get more done

Blue optical sensor allows the mouse to work on almost any surface, distraction-free silent buttons, and on-the-fly adjustable DPI controls.

Connect conveniently

Effortlessly pair with up to two devices at once and quickly switch between them with the push of a button, thanks to Bluetooth 5.0 and Microsoft Swift Pair technology.

ThinkBook Wireless Mouse

Specifications

- Compatibility Systems:** PCs with USB-A Port

Part Number

4Y50X88824

Designed for comfort

Crafted to be comfortable, the 14mm thick V-shaped mouse provides plenty of room to rest one's palm while the index and middle fingers are ergonomically positioned over the buttons. Portable size easily fits in your carry case or pocket.

Enhanced connectivity and precision

Dual-mode Swift Pair support via Bluetooth 5.0 and USB dongle allows you to connect to a notebook or tablet, and switch seamlessly at the push of a button. Easy on-the-fly DPI adjustment (800, 1200, 1600) enables high-precision tracking.

Present with confidence

Turn it flat with the twist of a hinge to get a perfectly-sized presenter with a virtual laser pointer and intuitive control. Move and control presentations from anywhere in the room from up to 10m (11yds).

ThinkPad Precision Wireless Mouse

Specifications

- Connectivity:** 2.4GHz wireless technology
- Color:** Midnight Black, Heatwave Red, Frost Silver and Graphite Black
- Scrolling:** 4-way scroll
- Resolution:** 1200 dpi
- Power requirement:** 2x AA battery
- Battery life indicator:** Yes
- Battery life:** over 9 months
- Sensor:** Blue optical sensor
- Weight:** 102g (0.23lb) with batteries
- Dimensions:** Length: 98mm (3.9"), Width: 56mm (2.2"), Height: 32mm (1.3")

Part Number

Midnight Black: 0B47163 Heatwave Red: 0B47165 Frost Silver: 0B47167 Graphite Black: 0B47168

Enhanced functionality

Adjustable 1200 DPI and blue optical tracking technology enhances the user's control through precision performance on almost any surface. The Lenovo Mouse Suite software also provides additional functionality including the ability to configure buttons and the 4-way scroll wheel.

Mobile friendly

Compact lightweight design is well-suited for mobile workers. Its micro-size USB receiver can be neatly stored inside the mouse to avoid accidental loss and for easy access on the go.

Sculpted for comfort

Ergonomically designed with customised contouring, providing suitability for both left and right-handed users. Available in Midnight Black, Heatwave Red, Frost Silver and Graphite Black.

ThinkCentre Nano IoT IOBOX

Specifications

Dimensions: Length:178 Width:88 Height:25.6 mm

Connectivity:

Front: 2x RS-232/422/485 (SW changeable),
2x LAN POE, 1x DC 9~36V input (through DC-in Cable or DC-in connector)

Rear: 1x USB-C (Connect with Nano IOT PC, USB3.1 Gen 1 speed, up to 5Gbps, supports USB Power Delivery 3.0)
1x Digital Input / 1x Digital Output port (Support 4 channels) Input Voltage: DC IN 9V~36V

Supported OS: Microsoft Windows 10 64-bit

Software & Utilities: IoT IOBOX DTI IO Controller & SDK Software

Part Number

4XH0X77236

Flexible connectivity

Connects to ThinkCentre Nano IoT via USB-C, providing Power over Ethernet (PoE), Digital Input/Output, and a Serial port (RS232/422/485), for better flexibility and adaptability during Retail, Manufacturing, and Smart Building system integration.

Single-cable power

One DC cable provides voltage input to the IOBOX and Nano IoT PC at the same time, saving customers the extra burden of an AC/DC power transfer in industrial DC power supply environments.

Future customizations

Flexibility to implement customizations using the I/O Controller & SDK software

ThinkCentre Tiny 1L Dust Shield

Specifications

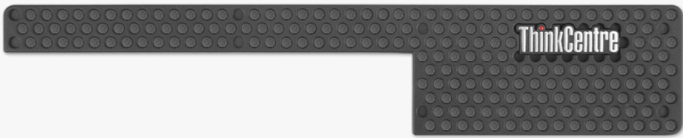

Compatible Systems : ThinkCentre Tiny 4th generation M7, M9 series

Color : Black

Packed Weight : 0.15kg (0.33lbs)

Part Number

4XH0N04885

Better performance

Dust build-up in a PC can cause heating issues and affect system performance over time. ThinkCentre 1L Tiny Dust Shield prevents dust from entering ThinkCentre Tiny systems, ensuring users get reliable performance every time.

Ease of use

The dust shield can easily be removed and washed when required. Done regularly, it minimizes the risk of system failure caused by overheating.

ThinkCentre Tiny IV DVD Burner Kit

Specifications

- Color :** Black
- Connection Type :** USB interface
- Compatibility :** Tiny 4
- Power consumption :** 5V/1.85A
- Average access time :** DVD-ROM 145ms CD-ROM 125ms
- Read Speed :** DVD-ROM 3.3-8x CAV 4.58-11.08 Mbytes/s
- Write Speed :** DVD-R(1-2x) 2xCLV 2.77Mbytes/s
- Sustained Transfer rate :** DVD-ROM 22.16 Mbytes/s(16x)max CD-ROM 6000kB/s (40x)max
- Packed Weight :** 500g (1.10 lbs)

Part Number

4XA0N06917

Expand capabilities

Enable crisp and clear DVD playback and reliable DVD recording with this DVD Burner Kit specifically designed for the ThinkCentre Tiny.

Mount compatible

Can be secured to a ThinkCentre Tiny PC using the ThinkCentre Tiny VESA Mount II (sold separately)

Lenovo USB-C Laptop Power Bank 14000 mAh

Specifications

Compatible Systems: Lenovo and ThinkPad Systems with USB-C or Slim-tip Power

Internal Battery: 14000 mAh (4-cell battery, 3500 mAh)

Recharging Time: <2 Hours

Input / Output:

Input: Slim-tip, Round-tip and USB-C (same port as output);

Output: USB-C port for laptop charging or with the dongle inbox, two USB-A ports 5V/2.1A

Cable Included: USB-C to USB-C cable, Slim-tip to USB-C dongle

Laptop Charging: Yes

Multi-device Charging: Yes

USB Charging Ports: 3

Simultaneous Charging (Power bank + Laptop): Yes

Universal USB-C Laptop Charging: Yes, models up to 45W

Non USB-C Laptop Charging: Yes

Dimensions: Width: 132.08 (5.2) Depth: 165.1 (6.5) Height: 38.1mm (1.5")

Weight: 0.44 kg (15.68 oz)

Part Number

40AL140CXX

Stay full of energy

Users won't need to worry about laptops, tablets and phones running low. This battery has 48Wh (14000 mAh) capacity, enabling it to charge a notebook and 2 other mobile devices via 1x USB-C and 2x USB-A ports.

Versatile connectivity, hassle-free

This workhorse of a power bank lends itself to USB-C, Slim-tip, Round-tip and USB-A connectors. It's simple to plug in and provides a maximum output of 45W (USB-C) or 10W (USB-A).

Multi-task charging

Even as it's recharging itself, this power bank can provide energy to a laptop and phone simultaneously. It recharges to full in under 2 hours and is compatible with a wide array of Lenovo and ThinkPad systems.

Lenovo Desktop Privacy Filter from 3M

Specifications

Filter Type: All-In-One desktops filter

Compatible Aspect Ratios: 21.5", 23.8" & 27.0" All-In-One desktop displays

Viewing Angle: 60 degrees

Brand: Lenovo, 3M

Surface Coating: Durable anti-glare surface coating

Transmission: 68%

Transmission Blockage Angle: Greater than 30° degrees for observers to the sides of the user

Part Number

For 21.5" displays : 4XJ0Q68426 For 23.8" displays : 4XJ0Q68427

Prioritizing privacy

Patented microlouver technology darkens the screen at specific angles to protect on-screen data such as login credentials, company financial records and other private data secure from visual hackers.

Use and re-use

Installation is quick and intuitive. Once in place, the high-grade optical film ensures high clarity with no distortion. Install and remove multiple times without worry - it does not leave any residue behind.

One filter. Two sides.

Reversible design with two finishing options: gloss for better clarity or matte option with ant-reflective coating for more comfortable viewing in brighter environments.

Lenovo Kensington MicroSaver Cable Lock

Specifications

Locking Mechanism: T-bar Lock for Kensington Lock Slots

Cable Length: 1.80m (70.9")

Cable Thickness: 10mm (0.39")

Weight: 180g (6.3oz)

Color: Black

Part Number

4XE0N80914

Reliable protection

This 10mm (0.39") cable lock, one of the slimmest in the market, ensures business laptops and the data they store are well-protected. Adjacent ports can be used easily, thanks to the 180° hinge offering flexibility when inserting the key.

Featherlight cable

The lightweight carbon steel cable offers strong protection, but with less weight and more flexibility. At 1.8 meters (6 feet) long, there's some freedom when it comes to device mobility.

Wide compatibility

Suitable for users regardless of device. This cable lock is compatible with most Lenovo laptops, desktops, docks and monitors that feature a Kensington security slot.

Lenovo Laptop Privacy Filter from 3M

Specifications

Filter Type: Notebook Filter

Compatible Aspect Ratios: 11.6", 12.5", 13.3", 14.0", 15.6", 17.3" displays. Also available for touchscreen and Yoga models

Viewing Angle: 60 degrees

Brand: Lenovo, 3M

Surface Coating: Durable anti-glare surface coating

Transmission: 68%

Transmission Blockage Angle: Greater than 30° degrees for observers to the sides of the user

Part Number

Varies by product.

Prioritizing privacy

Patented microlouver technology darkens the screen at specific angles to protect on-screen data such as login credentials, company financial records and other private data secure from visual hackers.

Use and re-use

Installation is quick and intuitive. Once in place, the high-grade optical film ensures high clarity with no distortion. Install and remove multiple times without worry - it does not leave any adhesive residue behind.

One filter. Two sides.

Reversible design with two finishing options: gloss for better clarity or matte option with ant-reflective coating for more comfortable viewing in brighter environments.

Lenovo Monitor Privacy Filter from 3M

Specifications

- Filter Type:** Monitor filter
- Compatible Aspect Ratios:** 17.0", 19.0", 19.5", 21.5", 22.0", 24", 27.0" & 28.0" displays
- Viewing Angle:** 60 degrees
- Brand:** Lenovo, 3M
- Surface Coating:** Durable anti-glare surface coating
- Transmission:** 68%
- Transmission Blockage Angle:** Greater than 30° degrees for observers to the sides of the user

Part Number

Varies by monitor size

Privacy protection

Whether working from a public space or in an office environment, the filter's patented 3M microlouver privacy technology will block the vision of shoulder surfers preventing them from viewing the screen.

Easy to use

Installation is quick and intuitive. Once in place, the high-grade optical film ensures high clarity with no distortion. Removing and reapplying multiple times is simple too - it does not leave behind any residue.

Matte or gloss?

Reversible design with two finishing options: gloss for better clarity or matte option with ant-reflective coating for more comfortable viewing in brighter environments.

Lenovo UHD F309 1TB Portable Hard Drive

Specifications

Hard Drive Capacity: 1TB

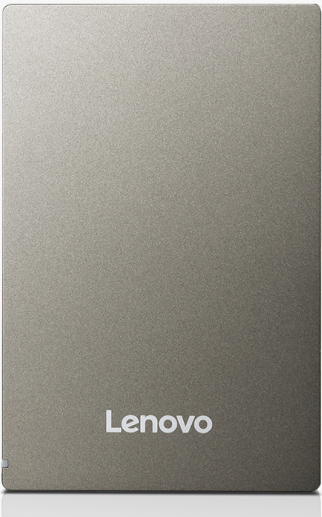

RPM: 5400

Dimensions: Width: 77mm (3.03"), Depth: 116mm (4.57"), Height: 13mm (0.51")

Weight: 0.28Kg (0.62lbs)

Part Number

GXB0K28987

Protecting business data

Business professionals can store up to 1TB of essential data and enjoy high-speed data transfers anytime and anywhere. It features an 8kv anti-static design and comes with surge protection to ensure that the hard drive and data stored in it remain secure.

Fast and portable

USB3.0 connection guarantees fast and reliable data transfers every single time. It's slim, compact design makes this device extremely portable for user convenience too.

Robust shell

Made with shockproof and pressure-resistant materials that keep the hard drive safe from physical damage.

ThinkPad USB 3.0 Secure Hard Drive

Specifications

- Connection Type :** wired via integrated USB-A Cable
- OS Compatibility :** compatible with all operating systems (Windows, Mac and Linux)
- Authentication Method Type :** secure password via embedded keypad
- Available Capacity :** 1TB
- RPM :** 5400
- Maximum Transfer Rate :** 55MBps
- Data Transfer Speed :**
 USB 2.0 - Reads up to 33 MBps, Writes up to 25 MBps;
 USB 3.0 - Reads up to 75 MBps, Writes up to 55 MBps
- Dimensions :** Length: 120 mm (4.72 in), Depth: 85 mm (3.35 in), Height: 20 mm (0.79 in)
- Weight :** 205 g (0.45 lbs)

Part Number

0A65621

Safe and secure

Perfect for business travelers who need to access sensitive corporate or personal data on the go. 256-bit Advanced Encryption Standard (AES) security ensures reliable protection at all times. Real-time encryption has no impact on the read/write performance.

Support for legacy devices

Comes with a USB 'Y' extension cable to ensure adequate power if connecting to a USB2.0 legacy device - enabling connection to 2x USB2.0 ports. If connecting to a USB3.0 device the single cable connector built into the hard drive is enough.

Password protected

Features an integrated switch keypad for an 8- to 16-digit password for one administrator and one additional user and built-in administrative password management system.

ThinkVision T27hv-20

Specifications

- 3-side NearEdgeless In-Plane Switching
 - Smart Guard powered by Glance by Mirametrix® Software - blurs screen when user looks away from the workstation
 - Smart Energy technology - turns off display when user is away from the workstation
 - Smart Traffic Light - warns others when user is video-conferencing
 - Lenovo's Smart Power technology - dynamically controls power throughout the monitor
 - Intelligent Synaptics AUDIOSMART® technology - picks up only sounds that come from in front of the screen, while canceling sounds that come from the left and right.
 - Integrated 1080p IRRGB camera - adjusts its angle to frame user perfectly and comfortably
- Width: 613.60mm (24.16") Depth: 208.00mm (8.19") Height: 473.60-608.60mm (18.65-23.96") 7.35kg (16.20 lbs)

A display of professionalism

The 27-inch QHD In-Plane Switching panel offers exceptionally vivid visuals. Two 3W front-facing speakers deliver video-conferencing colleagues' input with crystal-clear sound. And thanks to the intelligent Synaptics AUDIOSMART technology, dual built-in microphones pick up only sounds that come from in front of the screen, while canceling sounds that come from the left and right. That way, the listener on the other side gets to hear clear sound without any background noise.

Your business, secured and assured

Using the Glance by Mirametrix Software, the T27hv automatically blurs users' screen the moment they look away or get up and leave their desk. When the user is away from the workstation, the Smart Energy technology senses this and dims the display, both saving energy and doubling down on security. The Smart Traffic Light warns others when the user is video-conferencing or focusing on urgent tasks, resulting in reduced interruptions. Facial recognition helps in logging fast and provides an added layer of security. The built-in webcam shutter ensures the user can operate in complete privacy.

All connectivity. No clutter.

Lenovo's Smart Power technology dynamically controls power throughout the monitor and the devices connected to it, eliminating messy power supply cables and improving energy efficiency. Multitasking can be done by daisy-chaining a second monitor through the DP out port. Multiple ports like HDMI 1.4, DP 1.2 and USB-A are available to connect external storage, a keyboard or other mission-critical devices.

ThinkVision T27i-10

Specifications

- USB3.0 hub - provides through-connection between a PC and accessories
Width: 611.9mm (24.09") Depth: 269.8mm (10.62") Height: 403.3-513.3mm (15.88-20.21") 6.55kg (14.44lbs)

Responsive and Rich Display

This 27" Full HD (1920x1080) display has up to 4ms response time, and 72% NTSC gamut, providing 16.7M colours. The frame around the screen is as thin as 2mm (0.08"), making it ideal for multi-monitor setups. Connect devices with DisplayPort, HDMI or VGA.

USB Hub

Onboard USB hub with 1x USB 3.0 Type-B Gen1 upstream port for connection to a PC, and 4x USB 3.0 downstream, enabling seamless connection of peripherals with a PC.

Enhanced User Experience

Enhance user productivity with the built-in adjustable stand, optional sound bar speaker attachment and TÜV Eye Comfort certification.

ThinkVision T27q-20

Specifications

- Integrated smartphone holder
 - USB3.1 hub - provides through-connection between a PC and accessories
- Width: 614mm (24.17") Depth: 208mm (8.19") Height: 429.4-564.4mm (16.9-22.22") 7.44kg (16.4lbs)

Uncompromised Visual Experience

Experience exceptional image quality on this 27" QHD display with 99% sRGB colour gamut and 1000:1 contrast ratio. Run multiple applications with ease by deploying two or more of these near-edgeless monitors side-by-side.

Efficient and Smart Working

Maximize productivity by connecting directly to all essential peripherals via the onboard USB hub with 1x USB Type-B 3.1 Gen1 upstream port for connection to a PC, and 4x downstream ports (USB 3.1 Gen1). Connect an optional speaker via the Audio Out port for a complete audio visual experience.

Ergonomic and Space-saving Solution

Place the monitor either on its sturdy stand or mount it on a wall via a VESA mount. The extended tilt and lift range enables users to find the perfect angle for working comfortably. The cable management and integrated phone holder further add to convenience, by keeping the desk space organized.

ThinkVision T32h-20

Specifications

- Integrated smartphone holder
 - USB-C + USB3.1 hub - provides through-connection between a PC and accessories
 - Smart Power - intelligently manages up to 75W of power output to connected USB devices
- Width: 714.6mm (28.13") Depth: 235mm (9.25") Height: 469.4-604.4mm (18.48-23.79") 9.85kg (21.72lbs)

More Ways to Multitask

View greater detail on this 32" QHD display with 99% sRGB gamut and support for more than 1 billion colours. Multitask with ease by combining 2 or more of these nearly-borderless displays together.

Productivity without Distractions

Integrated USB hub; the USB-C upstream port can connect to a laptop providing a one-cable solution for power, video, audio, and data. 4x USB 3.1 Gen 1 downstream ports enable onward connection to peripherals. Smart Power technology distributes up to 75W to other devices while optimizing overall energy consumption.

Optimized Workspace

Users can adjust the screen with a high lift range and tilt angle, along with swivel and pivot functionality. Maintain an organized desk and maximize productivity with flexible cable management, an integrated phone holder, a minimized square base and VESA mount capability.

ThinkVision T32p-20

Specifications

- Integrated smartphone holder
 - USB-C + USB3.1 hub - provides through-connection between a PC and accessories
 - Smart Power - intelligently manages up to 75W of power output to connected USB devices
- Width: 714.6mm (28.13") Depth: 235mm (9.25") Height: 469.4-604.4mm (18.48-23.79") 9.85kg (21.72lbs)

Unparalleled Visuals

Get impeccably detailed visuals with this 4K resolution 32" display - with four times more pixels than a conventional Full HD monitor. The near-edgeless screen, 99% sRGB colour gamut and TÜV Rheinland eye comfort certification, ensure it's easy to work on - whether editing graphics or working with spreadsheets and documents.

Uninterrupted Productivity

Integrated USB hub; the USB-C upstream port can connect to a laptop providing a one-cable solution that simultaneously transmits power, video, audio, and data. 4x USB 3.1 Gen 1 downstream ports enable onward connection to peripherals. Smart Power technology intelligently distributes up to 75W to other devices while optimizing overall power consumption.

Organized Workspace

Choose between VESA mount capability to attach to a wall or connect a Lenovo Adjustable Height Arm, or use the built-in display stand with lift, tilt, swivel, and pivot functionality. A smaller base with a phone holder and cable management helps to keep desks organized.

ThinkVision T34w-20

Specifications

- Integrated smartphone holder
 - USB-C + USB3.1 hub - provides through-connection between a PC and accessories
 - Smart Power - intelligently manages up to 75W of power output to connected USB devices
- Width: 808.6mm (31.84") Depth: 245mm (9.65") Height: 462.4-597.4mm (18.21-23.52") 9.91kg (21.85lbs)

Multitasking Made Easy

Make multitasking a breeze with this curved 34" WQHD resolution display. With a pronounced 1500R curvature and 21:9 screen ratio, users will find it more immersive, enabling them to work with multiple applications on a single screen. The exceptional 3000:1 contrast ratio and curvature reduces reflection and glare. Connect to legacy and modern devices with HDMI, DisplayPort or USB-C connectors.

USB Hub

Integrated USB hub; the USB-C upstream port can connect to a laptop providing a one-cable solution that simultaneously transmits power, video, audio, and data. 4x USB 3.1 Gen 1 downstream ports enable onward connection to peripherals. Smart Power technology distributes up to 75W to connected devices while optimizing energy consumption.

Ergonomics Enhanced

Designed keeping user comfort in mind, it has a higher lift range and broader tilt angles than most monitors. This minimizes wobble and allows users to adjust its height to fit their needs. The integrated phone holder and flexible cable management helps keep desks tidy and organized.

Accidental Damage Protection

Protect from the unexpected

Today's highly mobile workforce knows that accidents happen. Drops, bumps, and spills can damage even the most durable and well-engineered tablets, PCs, and Smart Displays. And since standard warranty terms and conditions don't cover accidental damage to devices, that's where Lenovo's Accidental Damage Protection service comes in.

Covering accidents beyond the system warranty and protecting your devices from non-warranty operational or structural failures incurred under normal operating conditions, **Accidental Damage Protection (ADP)** service helps IT departments avoid purchasing and managing extra inventory to replace damaged units.

ADP offers your organization:

Peace of mind: Avoid unexpected costs associated with replacing damaged system parts.

Comprehensive coverage: Labour, parts, and full system replacement in cases where repair is not possible.

Quality assurance: Performed by Lenovo trained technicians using qualified parts.

Standard warranty terms and conditions don't cover accidental damage and experience shows that a significant portion of users' devices will be damaged and not covered under warranty in the first three years. This is where **ADP will help you save up to 80% of your repair or replacement costs** (depending on device type and repairs needed).

Although many manufacturers limit the number of claims to once per year, Lenovo provides continued coverage and multiple repairs, or a single replacement of your laptop or desktop.

Advanced Deployment Services

Empower users to setup and configure new devices

How much time does it take to provision and set up a new PC for a user? How do you migrate end-user information to their new device?

If you are deploying large numbers of new devices, Lenovo's **Advanced Deployment Services (ADS)** provide a low-cost alternative to outsourcing deployment, or consuming hours of internal IT time. Take the heavy lifting out of your PC deployments with a **customizable self-install wizard** that enables final configuration steps to be performed by end users instead of a technician. The user launches a setup wizard, answers a handful of easy questions, and **in minutes the system is customized**.

It can automate tasks from joining domains or creating user and email accounts to setting up printers, applying regional settings, installing apps and migrating data. Allow users to select which applications to install, or determine it automatically based on the user's member group in Active Directory, or the hardware of the device.

- Quick to enable; fully customizable solutions can be set up in just a few weeks

- You supply your own image or we can develop for you
- Enables installation customization to be achieved on a per users/system basis; you determine what settings and applications are available to what types of user
- Fully compatible with Active Directory
- A solution with ADS integration can be provided in a recovery partition

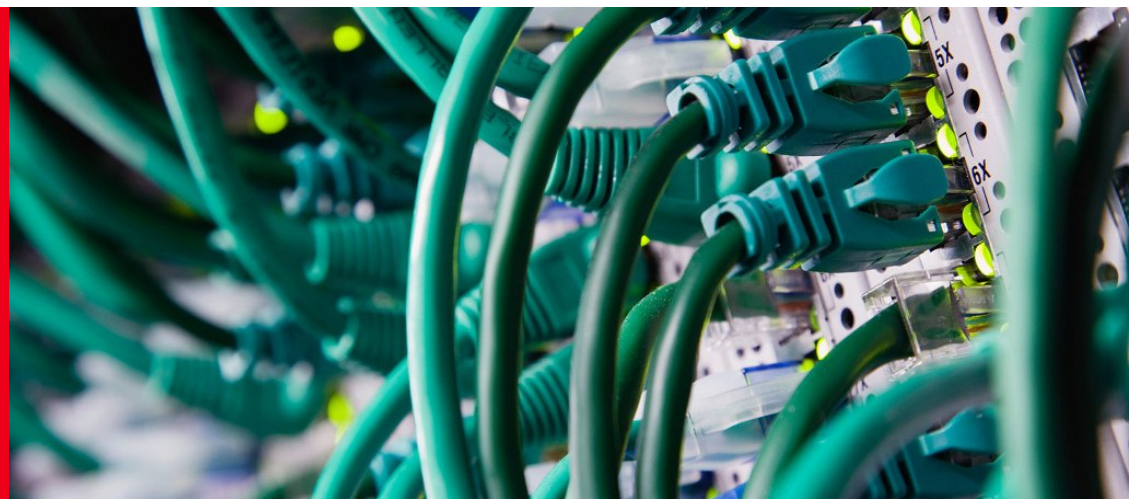

Self-install wizard enables PC set-up to be performed by end users

Low-cost alternative to consuming internal IT time

Automate tasks including network settings and software installation

Lenovo ADS improves the productivity and satisfaction of employees by enabling them to onboard new devices more quickly, and reduces your costs of using 3rd party providers or internal IT time.

“
automate tasks from joining domains or creating
user and email accounts to setting up printers,
applying regional settings, installing apps and
migrating data
”

Asset Recovery

Maximize value at the end of technology lifecycle.

Organizations today increasingly need to contend with data protection and environmental concerns when managing their assets. Some look to certifiably destroy data on old devices, while others want to make sure their equipment is not going to landfill. Most want to maximize the recoverable value to offset against future purchases.

Discarded technology products are contributing to a growing global environmental issue. By working with the best in business, Lenovo ensures that your organization is doing its part to be environmentally and socially responsible, as well as maximizing the recoverable value related to all your technology assets.

Cost-efficient asset disposition: A major advantage of working with Lenovo is that we can help your business offset some of the costs of your technology refresh and simplify the transition from old to new with one convenient, single source solution. Our team has the expertise, experience and existing relationships with the best vendors in the ITAD (IT Asset Disposal) industry, allowing us to generate the maximum possible value for your business.

The confidence of proven processes and experience: With a dedicated project management team leading you through the process, Lenovo will work with the world's leading recyclers and refurbishers to solve your e-waste dilemmas, negotiate the most aggressive value for your idle IT assets, maximize value recovery for systems based on age and condition, and ensure the safe disposition of assets at end-of-life, including secure data destruction.

Mitigating the danger of unmanaged data disposition: Lenovo works only with partners who accommodate a variety of different data destruction standards such as DOD, NIST, NSA, and other specific governmental data destruction requirements. Our team will also ensure your organization remains compliant with privacy laws such as HIPPA, GDPR, CCPA, Sarbanes Oxley, Gramm- Leach-Bliley, and others.

Strategic, socially responsible and compliant: Lenovo provides secure, documented disposition of IT assets and data, certified and documented validation of inventory and repair, and customized services to address the unique needs of your organization. We develop sustainable corporate disposition strategies for any technology hardware, and provide a range of strategies and options for asset disposition.

Lenovo's Asset Recovery Services (ARS) enables secure destruction of data, with minimum impact on the environment and a fair financial return for you. ARS is not just for Lenovo hardware but supports equipment from any manufacturer on a wide range of products, including PCs & tablets, monitors, servers, phones, printers, copiers and networking equipment.

“ Rely on Lenovo for best-practice hardware recycling and secure data disposition that's efficient, safe, environmentally sound and compliant with the rules and regulations in your territory. ”

Premier Support

Prioritize your business with Premier Support

As IT budgets contract, you need to reduce complexity, decrease operational costs, and find ways to increase efficiency from your in-house IT support teams. Lenovo™ Premier Support manages routine support tasks, freeing IT focus on strategic efforts that move the organization forward.

Boost end-user productivity and limit downtime with direct access to elite Lenovo engineers who provide unscripted, advanced hardware and software support. For more complex issues, Lenovo Technical Account Management teams provide end-to-end case management for faster, first-time resolutions.

Your direct line to a real expert: Talk directly with Advanced Level 2 technical support agents located in your country. Each case will be dealt with end to end by the same support agent.

Don't wait for parts and fixes: Premier customers get next business day onsite repairs. When an onsite visit is needed, we will accurately diagnose the problem beforehand, so an onsite technician will arrive prepared with the correct replacement part.

Do your end users frequently have software support needs? Premier provides one point of contact for hardware and software issues. We support how-to questions and assist with hot fixes for a range of software in your organization. Point your users direct to our agents for help with Windows, Microsoft Office, many Adobe products, Chrome OS, Quickbooks, SUSE LINUX, Norton, Skype and many more.

Do your users travel internationally? Users can find support when they are travelling overseas; phone numbers for Premier Support around the world can be found by entering your product serial number on support.lenovo.com

Premier Support is ideal for organizations with limited technical resources, or with geographically dispersed employees, high IT dependency or worldwide operations.

Increase employee satisfaction with access to professional technical staff that will get straight to solving their problems, offer priority replacement parts, software support and international coverage. IT teams can spend less time on basic troubleshooting and mundane tasks, enabling them to focus on more critical projects like digital transformation initiatives, upgrades to infrastructure, security audits and more.

We look forward to welcoming your organization to our Premier Support network, where your business is prioritized, always.

Advanced engineers. End-to-end case management. Faster, first-time resolution.

Premium Care

after-sales service will never be the same again

Premium Care is the hassle-free solution for all your technical support needs. With this front-of-the-queue and straight-to-the-experts customer support service, Lenovo provides you peace of mind and faster solutions, allowing you to get the best from your new device.

Premium Care delivers a superior level of customer care and tech support exclusively for Lenovo PC customers with benefits like direct access to trained and experienced staff, priority replacement of vital parts, and prevention of issues. It is designed to help individuals and businesses manage day-to-day IT challenges quickly and more efficiently. From assistance in setting up the PC to OS reinstallation, there are a range of support services available.

Easy, hassle-free solutions: While Premium Care provides one point of contact for hardware and software issues, it also supports "getting started" and "how-to" questions for a range of popular business applications such as Microsoft Office 365, the Adobe suite, Norton, Skype, and many more.

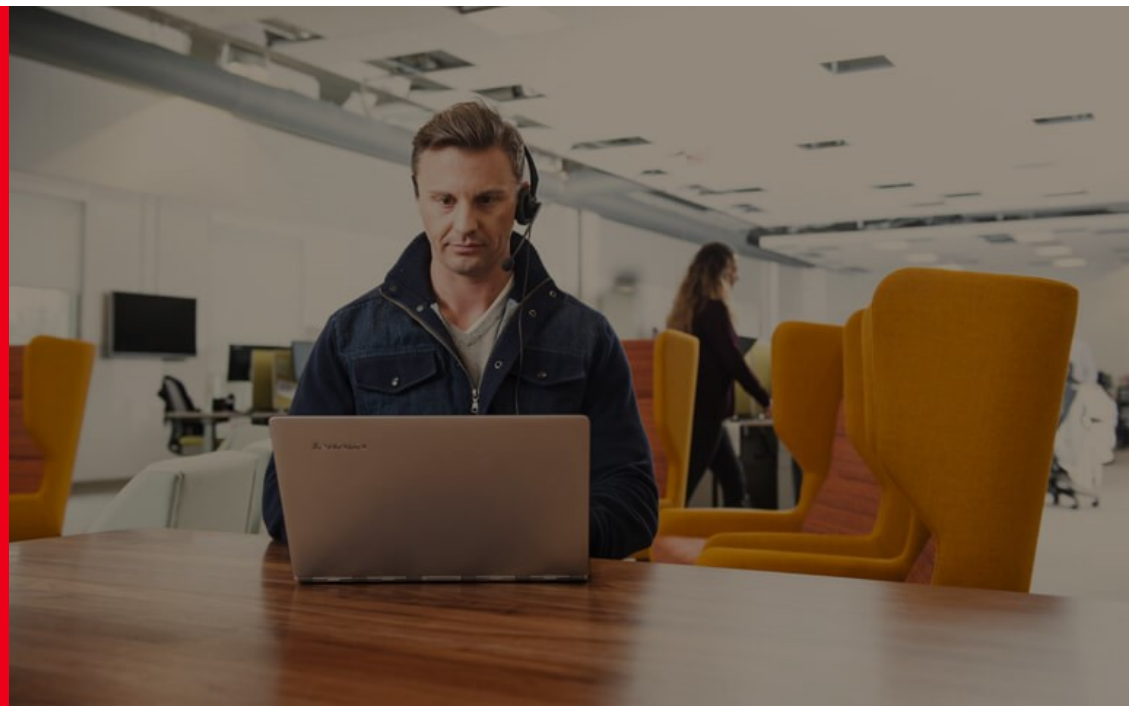

Real fast: Real-time solutions, whatever the issue, on your first contact. If needed, our team will schedule an onsite visit for the next business day.

PC health check: Free annual PC Health Check that allows our experts to spot issues before you do. This preemptive action helps you avoid PC problems.

Talk directly with experienced tech support agents located in your country using the dedicated support hotline. There's also chat and email support for flexibility. Select Premium Care as an add-on service for new devices at lenovo.com or ask your sales representative to attach it to your in-store purchase.

Comprehensive Box to Boot support over the phone

Return To Depot Repair Warranty

repair at the service center made easy

Customers who are required to budget all PC expenses at the time of purchase can opt for Lenovo's Return to Depot service. Under this, if a problem with a Lenovo device cannot be resolved via telephone or through the use of a Customer Replaceable Unit (CRU), the product will be repaired or replaced at a designated service center.

Instead of having to take it to a service center, Lenovo will pay for all three legs of shipping – the box to the customer, freight to the service center, and freight back to the customer. The average time to repair is 7-10 business days.

Save on shipping costs: All charges for shipping systems back and forth to the repair center, including packaging, is paid for by Lenovo

Avoid unplanned operational expense: Accurately budget for IT expenses at the time of PC purchase

Convenient and reliable repair services: Avoid the hassle of carrying taking units to the repair center

For faster resolution, there is the option of upgrading to Expedited Return to Depot that typically has the device back to you by the 3rd business day.

“ remote repairs made easy with shipping paid for by Lenovo ”

Sealed Battery Warranty

Guaranteed protection against battery failures

Typically a battery is designed to support 1,000 charge/discharge cycles over a period of 3 years. However, batteries degrade over time, and variables such as temperature, usage, and age affect performance. To determine if a battery should be replaced under warranty, Lenovo will run diagnostic software on the device to determine if the battery health is normal based on the age and charging cycle count.

Most of Lenovo's laptops and all of our tablets contain 'sealed' batteries, which means they need to be removed and replaced by a qualified technician in the event of a failure or severe degradation in performance.

The low upfront cost of the Sealed Battery Warranty is significantly less than that of a replacement not covered by an extension policy

Covers for a single replacement of the battery in years 2 or 3 of the extended period (the base warranty already covers a replacement in year 1)

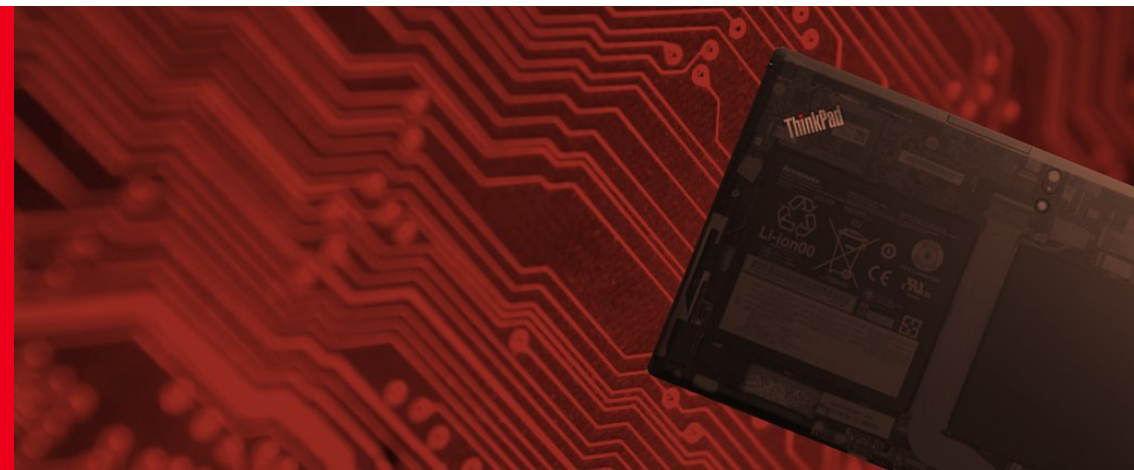

Must be purchased within the first year of when the device was purchased. Available for ThinkPad and ThinkBook laptop and tablet products, along with select Lenovo-brand products

Combine with an On-site Warranty to enable a qualified technician to visit your premises and replace the battery without having to send the device to a repair centre

Laptop and tablet batteries have a 1 year base warranty only, so the **Sealed Battery Warranty** can be purchased for a nominal fee to upgrade this to 2 or 3 years. The length of the Sealed Battery Warranty upgrade does not have to match the length of the overall warranty for the device.

all batteries have a 1 year base warranty which can be upgraded to avoid unexpected costs and downtime

Smart Image

one dynamic image to simplify provisioning

Managing multiple images for different devices can be time-consuming, as each must be regularly tested and verified as driver updates, hot fixes or preloaded app requirements change.

Lenovo Smart Image creates a **single dynamic image** that is **compatible across multiple Lenovo devices**; especially useful for growing businesses who may be purchasing new devices in waves of expansion.

You supply us your hardware-independent image, and we will add support for multiple Lenovo products. For added flexibility, we can update it quarterly, so as drivers are updated they are reflected in your image.

- Eliminates the need to manage multiple images and ensures compatibility across hardware platforms
- Can be executed in just a few days

- The solution is network, service partition, USB, and DVD deployable
- Modular installation process enables you to choose which content you need in your solution
- Reduce the storage footprint of the image with common drivers used across multiple models

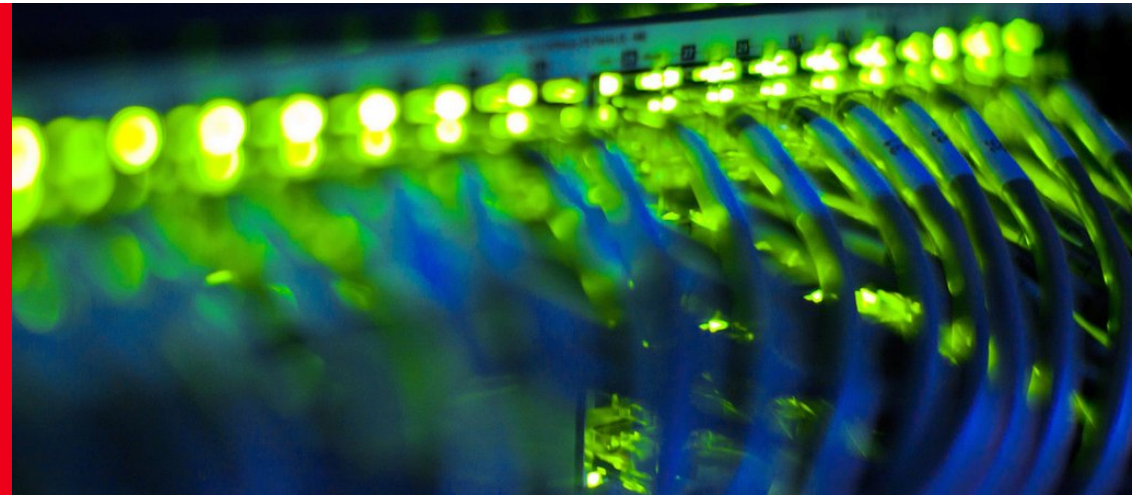

Converts your image to make it compatible across Lenovo devices

Useful for businesses purchasing devices in waves of expansion

Network, service partition, USB and DVD deployable

With Lenovo Smart Image, **time spent on a hardware transition can be reduced from weeks to a matter of days**. In addition, your ongoing image maintenance costs will drop significantly.

Lenovo Smart Image eliminates the need to manage multiple images and ensures compatibility across hardware platforms

Warranty Extensions

Customizable warranty services for your business

How often do you refresh your technology? The majority of organizations are replacing devices every 3 to 5 years, but most new devices come with standard warranties of only 1 or 2 years. This means organizations need to manage unplanned expenses when devices are out of warranty; no surprise that 50% of businesses* claim to purchase extended warranties.

But the reality is more complex; increasingly we see customers extending the warranty support of existing hardware for some users, while at the same time purchasing new devices more frequently for others. This 'hybrid' replacement cycle demands greater flexibility in how warranties are provided. As a result, Lenovo offers a broad range of warranty services:

- **Purchase additional warranty periods** from 1 to 5 years; buy the warranty extension at the same time as new devices OR at any point afterwards
- **On-site Service:** if the problem can't be resolved over the phone, a technician will be dispatched to arrive on-site, typically the next day.
- **Mail-in Service:** parts and labour repair coverage, where you are responsible for shipping to us
- **Depot Service:** parts and labour repair coverage, where shipping is paid for by Lenovo (typical turnaround time is 7-10 days including shipping)

- **Expedited Depot Service:** parts and labour coverage with expedited turnaround (typical turnaround time is 3 days including shipping)
Talk to us about your replacement cycles and how we can customize a warranty package for your unique needs.

** Lenovo Service & Warranty study, Nov 2017*

Cost savings: Minimize unplanned operating and maintenance expenses.

Global coverage: Consistent service levels for multinational organizations, with in-region and local-language support.

Increase uptime and productivity: Convenient On-site and Expedited Depot options.

Customize to your needs: Lenovo's flexible warranty options are designed to fit the varying needs within an organization. Match service coverage duration with the expected lifecycle of your PCs.

Warranty Extensions extend the term of the base warranty at the same service level, offering longer protection against unexpected repair or replacement costs. They are available for periods of up to five years for Think products and up to three years for Idea / Lenovo branded products.

50% of businesses claim to purchase extended warranties

First Boot Services

give your team a headstart

How long does it take your IT staff to boot each new PC and customize it for your environment and users? Are there other strategic projects they could focus on if less time was spent on PC deployment tasks like software and driver installation?

Lenovo's **First Boot Services** offer you a fast, flexible and low-cost solution. It shifts expensive, labour-intensive desk-side services to an automated process that saves money and improves end-user satisfaction.

With First Boot Services, the PC setup tasks that do not require your network access, can all be moved into Lenovo manufacturing. For example: installing a custom image, anti-virus software, drivers, device management software, enabling drive encryption, etc.

Save time & money: save 20 minutes to an hour of deployment time per device.

Consistency: across devices for drivers, patches and so on, with fewer people downloading updates at different times.

Enables consistency across devices for drivers and patches:

Streamlining the deployment process, Lenovo's First Boot Services eliminates or minimizes the time your IT team needs to spend loading common applications, images, or enabling encryption.

For those tasks that do require access to your network, our **Advanced Deployment Service** enables your final configuration steps to be performed by end users at their desks, saving even more time for IT staff.

First Boot Services remove the number of steps required to set up a new PC, saving money and improving end-user satisfaction.

Technician Installed Customer Replaceable Unit

Replace parts with professional installation

Under warranty, some internal parts in our devices are considered Customer Replaceable Units (CRUs). In the event of a device failure, if we diagnose the faulty part is a CRU, we would ship the replacement part to your premises with instructions for self-installation.

With Lenovo's **Technician Install CRU** service, parts that would normally be installed by a user are now installed by a certified technician that we dispatch to your business premises. To use this service, the product must be covered by a Lenovo On-Site Warranty or Lenovo Premier Support.

Ultimate convenience: On-site + Technician Install of CRU parts is ideal for remote locations where technical resources in your organization are not easily available, or for businesses who want to minimize risk and down-time associated with in-house repair.

Optimizes IT support time: Free your IT staff from internal parts installation so they have more time to deal with mission critical business issues.

Quality assurance: Consistent, best-in-class quality with Lenovo-Qualified Parts and Technicians sent to your premises.

Sealed Battery Warranty Extension is available for ThinkPad notebooks and tablets with integrated (sealed) battery, as well as for selected Lenovo-branded products. The battery service period must match the system warranty.

“parts that would normally be installed by a user are now installed by a certified technician”

On-site Service

fast, on-site support

Today's technology and Lenovo's extensive reliability testing means it's unlikely to occur frequently, but if you are supporting hundreds of users and there are issues with mission-critical hardware, fixing and replacing parts suddenly becomes a priority.

Whether it's executives or specialist roles that need fast support, a large number of our customers select On-site Service.

With On-site service, if a problem can't be fixed remotely, a technician will visit your location to repair a device. The date and time for On-site service will be mutually agreed upon, normally by

the next business day, and we will either repair or exchange the failing machine at your location and verify functionality.

With On-site Service you can:

Save resources: Save time and money by having Lenovo support available onsite to address issues quickly.

Optimize efficiency: Achieve maximum uptime and productivity when operating within a mission-critical environment.

Minimize unplanned expense: Accurately budget for IT expenses at the time of PC purchase.

“ if a problem can't be fixed remotely, a technician will visit your location to repair a device ”

Encryption Services

pre-encrypt your devices for easy deployment

How do you currently encrypt your systems? Manual encryption can take your IT team an average of 120 minutes per device – time that can otherwise be used to focus on activities that deliver greater business value.

Encryption Services from Lenovo provides **factory-enabled full drive encryption**, eliminating the long wait time needed when full drive encryption is deployed outside of manufacturing.

Reduce the burden on your IT team: your onsite technical staff can save approximately 120 minutes of encryption time per device.

Cut down on IT expenses: save time and expenses with a reliable single-source solution.

Minimize risk of penalty: most compliance standards today mandate encryption, or impose lesser penalties on encrypted drives.

Your choice: we can use whichever encryption method and software you choose.

“ manual encryption can take your IT team an average of 120 minutes per device ”

Expedited Depot Repair Warranty

minimize downtime, enhance operational efficiency

When uptime and productivity are essential to your business operations, every extra hour spent waiting to get your system issues resolved could prove costly.

Lenovo's **Expedited Depot** service speeds up our standard 7-10 business-day turnaround time. Once the defective or damaged systems are sent in for servicing, we will normally get the repaired system **back by the 3rd business day**.

Priority support: save time and money by having Lenovo support available to address issues quickly.

Reduce downtime: achieve maximum up-time and productivity with a wait-time of just 3 days rather than 7-10 days of standard depot/courier.

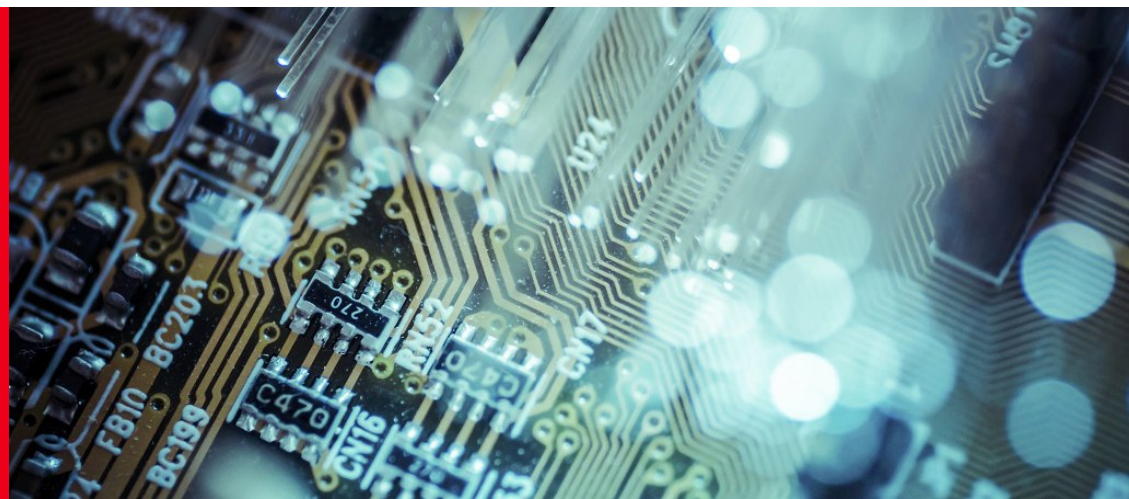

Avoid unplanned operational expenses: accurately budget for IT expenses at the time of PC purchase.

With Expedited Depot, you get **front of the line priority for repairs in the depot**. And in the unlikely event that needed parts are back ordered, you will also receive priority for back ordered parts.

achieve maximum up-time and productivity with a wait-time of just 3 days

Asset Tagging

track and protect your devices right out of the box

Loss or theft of devices is a growing problem that can have a far-reaching impact on your organization. Tamper-proof physical labelling of devices can deter theft and make it much more likely that lost devices are returned.

Asset tagging can be done during the manufacturing process, ensuring your devices are trackable right out of the box. This information can also be **loaded into the BIOS** enabling easy import of data into asset management systems.

Executed in production, Asset Tagging ensures your PCs are protected from day one, easily identifiable and trackable right out of the box. Lenovo offers flexible options to meet the exact needs of your organization.

Unique Branding Opportunities: Make an exclusive limited edition. Impress customers, reward employees. Include graphics and text. Showcase your logo, organization name, phone number, and more. Asset Tagging, Laser Etching and UV Printing can be customized for your needs.

Easy and Effective Asset Management: Save time by enabling detailed asset information to be quickly and accurately imported into your asset management system.

Streamlined Deployment: Done in the factory, asset tagging ensures your machines arrive with customized tags for quick and accurate tracking on day one.

Combine Asset Tagging with Lenovo's **Laser Etching Services** to provide a further means of identifying your organization's assets and promoting your brand. Laser Etching can be used to apply identifying information and custom graphics to the cover of a wide range of ThinkPad products; ideal for branding and customized gifts.

Keep Your Drive

secure your data with Keep Your Drive (KYD)

What happens to the data residing in your systems in the event that a storage drive fails and needs to be replaced? Under the terms of the Lenovo Limited Warranty, when we replace a defective part, that part becomes the property of Lenovo.

The **Keep Your Drive Service** allows you to keep your drive(s) and dispose of business data on your terms, improving data security and ensuring compliance with data privacy and retention requirements, as well as mitigating civil liability risks associated with data breaches.

Because our diagnostics system can identify when a disk drive is defective, as soon as you report a problem we can quickly

determine if the drive needs to be replaced. We will then authorize you to remove the drive before giving the device to us for installation of a new storage drive.

Predictable budgets: provides predictable upfront costs versus finding budget in the event of drive failure.

Regulatory compliance & protection: avoid the legal and monetary repercussions associated with a breach in data security.

Comprehensive coverage: covers multiple drives in a system and multiple failures, for both HDD and SSD drives.

Data remains secure: if your organization handles sensitive data, it eliminates the need for tracking failed drives in transit.

“Because our diagnostics system can identify when a disk drive is defective, as soon as you report a problem we can quickly determine if the drive needs to be replaced
