Did you know?

- According to the Corporate Knights annual ESG-focused rankings, Lenovo has been recognized as one of the world's Most Sustainable Companies in 2022, for the 3rd consecutive year in a row
- Lenovo believes in reliable end-to-end security of devices. Security begins with design and continues through supply chain, delivery, and the full lifecycle of the device.
- With 46 world-class labs, 6500 globally recognized patents to its name and 100+ major design awards, Lenovo has a legacy of innovation.
- Lenovo ranked #16 in Gartner's 2021 Top 25 Global Supply Chain, highlighting their operational excellence in the global supply chain community

Tablets

Uncover a selection of tablets crafted for mobile workers, including basic models for frontline tasks and laptop-replacement devices. Enjoy extended battery life, robust processors, security features, and integrated digital pens for note-taking and sketching, fostering continuous connectivity and productivity.

ThinkPad X1 Series

Lenovo Tablet Series

Tablets

From basic handhelds to 2-in-1 devices, these solutions offer mobile workers maximum flexibility and may be considered as companion devices or PC replacements.

ThinkPad P4 Series

Desktop Workstations

Each workstation is built for future expansion and is tested to exceed the requirements of the most demanding software applications.

Mobile Workstations

Designed for power users working and traveling, these devices are optimized for a range of software titles, with professional-grade graphics and processors.

Mobile Workstations

ThinkPad P14s Gen 1

Our lightest mobile workstation enables advanced users in your workforce to stay productive from anywhere in these changing times. Whether computing data or rendering videos, expect fast and responsive performance. It packs in optional NVIDIA Quadro P520 graphics, up to 48GB DDR4 memory, and up to 2TB of M.2 PCIe SSD storage. Experience faster internet speeds, either through WiFi 6 when in a crowded network environment, or using the optional WWAN module when working remotely.

Thunderbolt 3 port

Key Specs

up to 10th Gen Intel Core i7 processor

14.0" screen, up to 4K (3840x2160) Dolby Vision HDR, or Full HD (1920x1080)

NVIDIA Quadro P520, 2GB

Powered by Windows 10 Pro

ThinkPad P15v Gen 3

Experience astounding performance, multitasking and visuals in this 15.6" device- designed for modern hybrid workers. Featuring the latest 12th Gen Intel core i7 H-Series processors with 14 core and Intel Iris XE graphics, it can handle all your heavy workloads like data analysis and CAD with ease. Thunderbolt 4 and USB 3.2 ports enable uninterrupted data transfers and amplified connectivity to monitors and peripherals. Choose the 4K IPS display with Dolby Vision HDR for superior clarity and comfort in meetings.

Keyboard with numeric pad

Intel vPro® with Intel® Core™ i9 processor

15.6" UHD up to 3840x2160

Intel Iris Xe Graphics in processor, up to NVIDIA RTX A2000 Laptop GPU graphics

Powered by Windows 11 Pro

ThinkPad P1 Gen 5

Combining performance with portability, this 16" device is preferred by advanced users looking for more from their devices. Featuring the latest 12th Gen Intel core i9 H-Series processors with 14 core and up to NVIDIA RTX A5500 GPU graphics, it can take on compute-intensive tasks like data analysis or production editing easily. 2X Thunderbolt 4 and USB 3.2 ports enable uninterrupted data transfers, and provide easy connection to monitors and peripherals. Choose the 16:10 IPS display with Dolby Vision HDR for lifelike colour and clarity.

Woven carbon fiber finish option

Key Specs

Intel vPro® with Intel® Core™ i9 processor

16" screen, WQUXGA (3840x2400) Dolby Vision HDR with touch

Up to NVIDIA® RTX™ A5000 or NVIDIA GeForce® RTX 3070/3080

Powered by Windows 10 Pro for Workstations

ThinkPad P1 Gen 6

Powered by up to 13th Gen H Series Intel Core i9 processor, this device enables data analysts to run multiple applications, handle large datasets and perform complex computations without experiencing performance lag. Configured with up to 96GB DDR5 memory and up to 2x4TB SSD storage allows coders to set up virtual machines and run emulators effectively. With dual Thunderbolt 4 ports transfer large files and code repositories between laptop and external storage devices at high-speed

6-row, spill-resistant, multimedia Fn keys
